

eBillme.com Provides Online Coupons For Additional Back-to-School Savings

eBillme.com offers its customers a number of online coupons to help them save money while back-to-school shopping. To take advantage of the coupons, shoppers simply need to visit the site to find coupon codes for over 800 online retailers.

July 26, 2010 (FPRC) -- RYE BROOK, NY -- eBillme.com, an online company dedicated to providing an alternative to credit cards and helping Americans reduce their debt, has added a number of online coupons for back-to-school shoppers looking to save some money.

Shoppers can join eBillme.com's mailing list to receive back-to-school sales alerts. In addition to these special sales at participating merchants, eBillme.com also offers customers a special 'deal of the day.' These deals come from name brand merchants such as Sears and Buy.com and the merchandise is offered at a steeply discounted rate.

"We know that back-to-school shopping can get expensive, especially for larger families. We want to help stretch those back-to-school shopping dollars with our online coupons. Shoppers just need to go to our site and browse our list of popular retailers to find the deals. Our Sears coupons, for instance, allow shoppers to save \$10 instantly, just by applying the coupon code when they check out with eBillme at Sears.com," said Samer Forzley, Vice President of Marketing at eBillme.com.

The site works with a number of popular retailers, including Shoebuy.com and Buy.com. Shoppers on these sites can check out with eBillme instead of entering a credit or debit card number into the site. Because the system does not require a credit card number, shoppers can shop online without worrying that their credit card numbers may become compromised. Instead, the service allows shoppers to pay securely through their own bank's online bill pay program or at a number of walk-in locations throughout the country.

In addition to the savings provided by eBillme's coupons, shoppers are also protected by a free buyer protection guarantee. If a shopper finds the same product advertised for less within 90 days of purchase, eBillme.com will refund the difference. Customers just need to send in a copy of their original purchase receipt and a copy of the printed advertisement to receive the refund. Customers also have a satisfaction guarantee on all purchases within 90 days and zero fraud liability coverage to ensure they are never responsible for unauthorized transactions.

"We're proud to offer our customers an alternative when shopping online. We know many people use the bill pay programs through their own bank easily and securely every day and we're pleased to offer this service. Our shoppers can purchase from major online retailers without worrying about ever accruing credit card interest, fees or unauthorized transactions. We invite everyone to take advantage of our unique service and amazing coupons this back-to-school season," said Samer Forzley.

About eBillme.com:

Since 2005, eBillme has transforming the online shopping experience. Over 800 stores currently accept eBillme, allowing shoppers to buy online and pay securely through their own bank's online bill pay system. Merchants who accept eBillme payments include Sears, Kmart, Buy.com,

ShoeBuy.com and more.
