

Directrooms.com – 2010 Vietnam Oil and Gas Expo to Take Place Between 8 and 10 September

DirectRooms.com announces the Vietnam Oil and Gas and Petrochemical Engineering Exposition and Conference 2010, scheduled to take place from the 8th September until the 10th September.

August 9, 2010 (FPRC) -- Put together by a joint effort between PetroVietnam, the International Fair and Communication GFC Company, Ltd. and MyEvents SDN BHD, the event is also supported by the Vietnamese government as well as various ministries and companies around the nation who want to provide a closer look at the oil and gas industry as a whole. The event will take place at the Hanoi National Convention Centre.

The overall purpose of the exhibition is to bring together manufacturers and suppliers of processing equipment for what is considered to be one of the fastest growing industries in Vietnam. This will create a platform for both service providers and decision makers from the leading oil and gas companies throughout the country.

Visitors are limited to professionals related to the field of exploration and development in the oil and gas industries, as well as those who work with seismic data acquisition, reactors, electrical equipment and other products and industries related to the oil and gas industries. Exhibitions will include stalls from environmental services as well as exploration and production companies and everything and anything to do with oil and gas production.

Hanoi hotels throughout the city are expected to be filled with professionals from across the globe, keeping a close eye on the development of new oil and gas production facilities to avoid disasters like the recent BP spill in the Gulf of Mexico.
