

MantelsDirect.com Now Offers Three New Styles Of Cast Stone Mantels

MantelsDirect.com announces the release of three new cast stone fireplace mantel designs, addressing the need to provide larger options for customers.

August 6, 2010 (FPRC) -- FLORENCE, AL -- MantelsDirect.com, a leading online retailer of high quality fireplace mantels, outdoor fireplaces and fireplace accessories, is now offering a wider collection of stone mantel styles to choose from. The mantels are in the company's 'Classic' and 'Majestic' categories and include the Palermo, Roma, and Norwich.

Each cast stone mantel is available in seven natural, honed or polished finishes. Color choices for the natural finish include buff, limestone, natural, and taupe, providing a "semi-rough" look. The honed or polished finish options include chocolate, Sahara and Sahara veined, which provide a hand worked, smooth finish. Currently, the company is planning to provide a new olive color option as well. To make shopping even easier, MantelsDirect.com provides free color/stone samples of existing colors as well as the option to provide custom colors.

The stone mantels come in a variety of price points, so there are options for every type of budget. Mantels are typically "sized-to-fit" which allows a perfect fit in nearly any space whether new construction or a replacement remodel. Matching surround facing is included. Facing is custom sized to fit each customer's firebox opening.

"With so many different styles of stone fireplace mantels available, we're sure we have something to fit every home's personal style. Customers can also add hearths and over mantels to ensure a dramatic focal point for their home. Whether our customers are looking for a natural stone or honed finish, each of our stone mantels, including our new Palermo, Roma and Norwich mantels are great additions that are inexpensive to install and are outstanding values," said Rick Morse, CEO of MantelsDirect.com.

In addition to the stone mantel collections, MantelsDirect.com offers traditional wood mantels, marble mantels, rustic timber mantels, and even cabinet mantels for gas or electric fireplaces. The company also sells mantel shelves, gas, electric and gel fireplaces, fireplace logs, outdoor fireplaces, screens, tools and other fireplace accessories.

"We want to be a one-stop shop for everything related to fireplaces. Many of our customers buy from us again and again, mostly because they know our service doesn't end when the mantel is delivered. We work hard to make sure our customers receive expert assistance and each of our mantels comes with detailed instructions to make installation as simple as possible. We love it when customers send us photos of their final projects and tell us they're shocked at how simple the mantel was to install," said Morse.

For more information on the stone mantel collection or any of the products available from MantelsDirect.com, visit the company's website.
