

CertExams.com Cisco CCENT (CCNA ICND1) Exam Simulator

CertExams.com, a leading prep exams provider, has recently released Cisco CCENT exam simulator. CCENT certification is intended for candidates looking forward for a career in computer networking using Cisco switches and routers.

August 6, 2010 (FPRC) -- CertExams.com, a leading prep exams provider has recently released Cisco CCENT exam simulator. CCENT cert, awarded by Cisco, is intended for candidates who have about six months experience in networking using Cisco routers and switches. For candidates aspiring for CCENT (CCNA ICND1) certification, CertExams.com CCENT Exam Sim provides an excellent simulated exam environment. The advantages of using CCNA exam simulator include the following:

The package consists of 300 questions in 3+ tests with:

- CCENT Simlet type of questions
- CCENT Testlet type of questions

- Network simulation questions
- Single choice multiple answer, and
- Multiple choice single answer questions

Probably, this is the only practice exam that provides complete range of CCENT question types including simlets and simulations.

The exam objectives covered by CCENT certification include the following:

1. Describe how a network works
2. Configure, verify and troubleshoot a switch with VLANs and interswitch communications

3. Implement an IP addressing scheme and IP Services to meet network requirements in a medium-size Enterprise branch office network.
4. Configure, verify, and troubleshoot basic router operation and routing on Cisco devices
5. Identify security threats to a network and describe general methods to mitigate those threats
6. Implement and verify WAN links

Other products offered by CertExams.com include the following:

1. CCNA Network Simulator
2. Juniper Junos Simulator for JNCIA
3. CCNA Exam Simulator
