

## **MyTarp.com Adds Leak Diverter Tarps To Its Extensive Product Offerings**

*MyTarp.com, a provider of high quality tarps, announces it has a new leak diverter tarp available on its website. Leak diverter tarps work by collecting water and funneling it away using a standard garden hose.*

August 17, 2010 (FPRC) -- MARIETTA, GA -- MyTarp.com, a website with a large selection of tarps, now offers customers the chance to buy a new leak diverter tarp. These leak diverter tarps are ideal for many types of leaks, including roof, pipe and ceiling leaks.

Leak diverter tarps work by collecting water from the leak's origin. Water is collected into the tarp, which has a specially made drain spout that connects to a standard 3/4 inch garden hose. The water can then be safely diverted into a sink, drain or even outdoors. Each leak diverter tarp installs easily with D-rings for quick installation and removal.

These tarps are available in 12 mil reinforced polyethylene fabric in silver and black, 13 oz flame retardant translucent vinyl laminated polyester or flame retardant anti-stat resistant vinyl. Each type comes in a number of different sizes so there's a leak solution available for small and large spaces.

"Our leak diverter tarps are the perfect solution for leak repairs. Oftentimes, it can take time to fix a leak, leaving computers, merchandise or office susceptible to water damage. Our leak diverter tarps give our clients the chance to immediately protect valuable equipment. We recommend that anyone with valuable equipment keep a leak diverter tarp on hand - you never know when it will come in handy," said Annie Yang of MyTarp.com.

In addition to the leak diverter tarps, MyTarp.com carries an entire range of general use and specialty tarps. Popular models include poly and canvas tarps, drop cloths, vinyl tarps, screens, shades and mesh, boat covers, a canopy replacement top, gym floor covers and more. The company also sells tarp fabric by the yard for customers with special needs.

Customers can also contact MyTarp.com if they need custom sized tarps. Custom tarps are available in a variety of canvas, poly, vinyl coated polyester, vinyl laminated polyester and vinyl coated mesh. Customers can choose from different colors and weights, ensuring that customers receive the exact custom tarp they need.

"It's our goal to provide our customers with quality tarps at rock-bottom prices, alongside amazing customer service. Whether you need a simple canvas drop cloth or are a trucker who needs a new truck tarp, we've got your needs covered. We guarantee that we have the lowest prices on our tarps and absolutely refused to be undersold. Our customer service agents are available to help Monday-Friday from 9 a.m. to 5 p.m. EST. Give us a call and let us show you the many uses of our quality tarps," said Yang.
