

10 New Honeywell Excel 5000 Controllers from DtiCorp.com

The Excel 500 and 600 Controllers are direct-digital control, microprocessor-based, programmable controllers that manage building functions. An Excel 500 can include up to 18 plug-in modules including a computer module, power supply module, optional modem module, and a site-specific set of analog and digital input/output modules.

August 18, 2010 (FPRC) -- Fort Lauderdale, FL - Popular Honeywell online retailer DtiCorp.com (<http://www.DtiCorp.com>) is introducing 10 New Honeywell Excel 5000 Controllers . The Excel 500 and 600 Controllers are direct-digital control, microprocessor-based, programmable controllers that manage building functions. An Excel 500 can include up to 18 plug-in modules including a computer module, power supply module, optional modem module, and a site-specific set of analog and digital input/output modules. The Excel 500 uses a standard computer module. The flexibility of Excel 500/600 easily accommodate expansion. A network can link Excel 5000 system controllers (Excel 50, 100, 500, and 600), a Q7645A Excel Link, Q7750 Zone Manager, and a Communication System Server on a peer-to-peer Communication Bus (C-Bus) so they can exchange data. The optional Excel X1581/2 Operator Terminal provides an operator interface that supports an interactive question-response dialog for easy access to messages and controller data. The optional Excel X1584 Portable Operator Terminal (POT) is a software tool that runs on a portable computer and is used to install applications programs, implement on-site adjustments, and access controller information.

Features:

- Bus-Wide MMI provides local viewing/modification of point information of all controllers attached to the Communication Bus.
- Modular design to allow expansion.
- Optional Distributed I/O for flexibility and easy installation.
- Stand-alone or networked operation for flexible use.
- Plug-in modules to use what you need.
- CARE-generated application programs for programming ease.
- Optional user interface for easy on-site changes.
- Battery-backed RAM eliminates reprogramming after power outage.
- Point trending for timely information.

Product Specifications:

- Description: Output Module
- Application: Output Module
- I/O Count: 3 three position relays
- Building Management Interface: ACSELON
- Building Management Interface: EBI

- Building Management Interface: SymmetrE
- Network Communications: C-Bus
- Network Communications: LonWorks Bus
- Commissioning Software: CARE

About Us: DtiCorp.Com (<http://www.DtiCorp.com>) carries more than 35,000 HVAC products, including industrial, commercial and residential parts and equipment from Honeywell, Johnson Contols, Robertshaw, Jandy, Grundfos, Armstrong and more. Our online catalog is easy to navigate and search, and all products have a picture and a description. If a customer has any questions about a product, they can call 800-757-5999 and speak with one of our product experts. Our mission is to offer the best prices anywhere to our customers.
