

Bass Fishermen Can Now Enjoy More Catching and Less Fishing

Florida Bass Fishing becomes a prolific online resource for the dedicated bass fishermen. The site guides them with adequate tips, techniques, map information on lakes, and fishing equipments.

August 21, 2010 – The bass fishing enthusiasts have a reason to celebrate as they can now access a ready reference on almost anything associated with their favorite hobby. Florida Bass Fishing has introduced complete guidance program that includes strategies and tips to do bass fishing, appropriate gears needed for the act, and also map based information on the lakes.

The website is the brainchild of Paul Bruessow who has been into this bass fishing for more than twenty five years. Mr. Bruessow has fished in south and central lakes of Florida and he personally used the tips and techniques that are mentioned in the site. He mentions that by using the techniques and tips he emerged successful in several bass fishing outings and tournaments. He also states that the methods are applicable in different locations apart from Florida Lakes, even in far northern state like Michigan.

The site not just mentions the effective methods, but also brings in videos on how to catch more bass. There are several videos that provide detailed demonstration of live bass fishing. The novice fishermen, particularly, finding this section of the site very informative. These videos make it easy to understand exactly how one can catch the largemouth bass with the mentioned methods and tools.

Those who are looking out for the perfect bass fishing gear; they do not need to search for any other resource. The website act as a perfect resource to shop for the best of fishing gears at reasonable prices. Florida Bass Fishing is an affiliate website that serves eBay, and hence it offers direct access to the available products on sale. The visitors can directly shop for their desired bass fishing tool from the hundreds of available items.

The site is regularly updated as bass fishing is a kind of ever changing sport. Fisherman of any skill level needs guidance on methods and tips, so that they can achieve success. The site maintains a section called tip of the week that provides a detailed overview on when and where to fish. This section features the best tips of the week, and these tips are rather detailed information on several vital issues regarding bass fishing.

All those who want to become a popular and successful fisherman, they just love Florida's fishing bass tournaments. Several such exciting events take place in the lakes of the state, and the site act as the perfect resource to provide information on such tournaments. Finding information on the upcoming Florida Bass Fishing tournaments is easy on this site as it features a dedicated section for that. Furthermore, the site also mentions about the main attractions and highlights of the events.

Organizers of such events can contact the site owners to list their events on the site. The site also runs an online forum where the users can post their experience or tips on bass fishing. To add forum posts or comment on existing posts, the users need to register with the site for free. The site is aimed to improve the experience of fishing bass, particularly in Florida. So far, the users who followed the tips and used tools have been quite successful in their outings. Here is what some

satisfied users have said- "I tried some of the lilli pad techniques on your site and landed a 5lb 3oz bass on a craw lure in thick pads."- LUIS TAMBUNGA"I have caught fish in several of the spots that you have highlighted on your site"- Double D
