

Reid Supply Launches Industrial Supplies For Accident Prevention And Fall Protection Gear

Reid Supply, an international distributor of industrial supplies, now offers accident prevention and fall protection gear to ensure the safety and health of employees in the packaging and shipping departments.

September 2, 2010 (FPRC) -- MUSKEGON, MI – International industrial supplies distributor, Reid Supply, recently announced the launch of a complete line-up of industrial supplies for accident prevention, fall protection, and employee first aid on the company's website, ReidSupply.com.

The company now offers an outstanding selection of safety gear for every industrial application. Reid Supply's newest safety and fall protection supplies are part of its 'packaging and shipping' sales category. More details on the new safety supplies can be found at <http://www.reidsupply.com/Results.aspx?pid=10023416>.

"The packaging and shipping department is sometimes overlooked when it comes to using safety supplies, but these folks typically put a lot of physical strain on their bodies. It is essential for them to be outfitted with properly fitting safety gear to help prevent injury. Putting your safety at risk in order to do your job should never be an issue. Top quality at competitive prices are the hallmarks of our company, and our new industrial supplies for accident prevention and safety will meet the same standards we maintain for all of our industrial equipment," says Greg Palmer, Director of Marketing at Reid Supply.

Reid Supply is a leader in industrial supplies and equipment, providing value and selection for industries ranging from construction to aerospace. They strive to offer top quality supplies at prices that meet or beat those of competitors and back every sale with outstanding customer service and support.

The statistics for industrial injuries indicate just how important it is to use proper industrial safety equipment. According to the U.S. Bureau of Labor Statistics, in 2008 there were over 5,200 fatal injuries in the industrial sector as well as over 3.5 million non-fatal injuries. Reid Supply intends to help reduce those numbers in the future by carrying the best safety gear available on its website.

The industrial equipment for safety now offered by Reid Supply includes back support belts, eye protection, respirators, ear protection, gloves, fall protection gear, hard hats, anti-fatigue mats, utility carts, and first aid kits. The company prides itself on offering safety equipment for industrial manufacturing and construction in order to protect hearing, sight and limbs and to help prevent industrial accidents from occurring.

"We're proud to offer a wide range of industrial safety supplies to customers. We've done our homework and have put together an array of safety equipment and fall protection gear that addresses the safety needs of nearly every industry. Our goal is to ensure that everyone has access to the proper safety equipment," concludes Palmer.
