

Chicago Trade Show Exhibit Company, Tradetec Skyline Announces New PictureScape™ Exhibit

Tradetec Skyline, a Chicago trade show exhibit company, announces it has added the new PictureScape Exhibit System to its inventory. The exhibit is just one of many portable displays in Chicago sold by the company.

October 19, 2010 (FPRC) -- CHICAGO, IL -- Tradetec Skyline, the premier source for customers looking for a trade show display in Chicago, announces it has added a new product to its inventory. The exhibit, called the PictureScape™ Exhibit System, allows users to completely customize their trade show exhibit with graphics and custom frame shapes.

The PictureScape™ exhibit works well for people who want a big graphic display that is lightweight and easy to set up. The entire system sets up easily with just an Allen wrench and takes around 10 minutes to install a 4 by 8 foot display.

"The PictureScape™ exhibit is one of a kind and we're thrilled to offer it to our clients. Buying this trade show display means that exhibitors don't need to sacrifice the look of their displays to take advantage of easy set up. Exhibitors just need to attach their Skyline fabric graphic panel onto the aluminum frame by sliding their fingers down Skyline's proprietary flexlock connection. The versatility of the PictureScape™ means that customers can create a different configuration whenever they want. This can help keep the display looking new and fresh, even for companies who attend multiple trade shows," said Ken Buckman, CEO of Tradetec Skyline.

The display isn't limited to trade shows. Its unique configurations mean that the system has many uses, including corporate lobbies and retail spaces. Customers can change the look of the display easily, creating a one of a kind look without the need to purchase a completely new exhibit system. The PictureScape™ exhibit also has a number of optional add-ons, including small product shelves, literature racks and lighting systems.

The PictureScape™ system isn't the only Chicago trade show exhibit sold by Tradetec Skyline. The company has a number of other trade show displays, including portable displays, island exhibits and modular inline exhibits. Every item sold by Tradetec Skyline is backed by the company's customer service department with access to hundreds of colleagues around the world.

"The PictureScape™ Exhibit System is one of the best portable displays in Chicago. It packs up small, yet can fill a 10 by 20 foot space with ease. If you're looking to make a big statement about your brand, consider PictureScape. For more information about the PictureScape™ Exhibit System or to watch a video that demonstrates installation, visit <http://www.ttskyline.com/New-Products/picturescape>," said Buckman.
