

## **Gourmet Settings Expands Its Popular Hoverkraft Dinnerware With New 'Hovering' Serving Pieces**

*Gourmet Settings new 5-piece 'hovering' serving set expands on the company's popular Hoverkraft dinnerware collection.*

October 20, 2010 (FPRC) -- RICHMOND HILL, ON - Gourmet Settings popular 'hovering' dinnerware design, Hoverkraft, has expanded with the addition of a matching 5 piece serving set.

The new serving set boasts Hoverkraft's signature raised base that makes meals 'hover' off the table. And while the 5-piece serving set expands the dinnerware collection, it is thoughtfully designed to conveniently condense in the cupboard. Each piece can neatly stack inside each other making storage very efficient.

The smooth, non-porous and chip-resistant surface of the Hoverkraft collection is a result of a unique firing process where pieces are bisque-fired, then glazed, and then fired a second time. The result is a hearty, sturdy set of serveware designed to last.

The 5-piece serving set includes:

- \* Pasta serving bowl
- \* Serving bowl
- \* Serving platter
- \* Salad serving bowl
- \* Veggie bowl

Launched in August of 2009, the Hoverkraft white porcelain dinnerware set has received a review rating of 4.9 out of 5 stars among Gourmet Settings fans.

"Customers say that they love the sleek look, versatility, and quality of the collection. When they asked for more pieces to add to their collection, we listened! The result is a set of uniquely designed serving pieces that are elegantly styled for entertaining, and yet practical for everyday use," said Hildy Abrams, President of Gourmet Settings.

To empower its customers to design their table setting around their needs, the entire Hoverkraft collection, is offered in open stock -- meaning customers can choose to purchase only the pieces they wish to add to their collection. Each piece of the new serving set, as well as each of the original 16 pieces, are available in sets of four so that customers can expand their collection.
