

Barina Craft Launches Bars In Your Home

Barina Craft, a manufacturer of home bar furniture, announces a new site launch for Winter 2010.

November 4, 2010 (FPRC) -- Dublin, OH - Barina Craft, a manufacturer of home bar furniture, announces a new site launch for Winter 2010.

Home bars have experienced a resurgence in popularity as a way to add elegance, value and flexible entertaining options for family, friends and guests. Bars 'Inn' Your Home focuses on maximizing your investment in entertainment furniture.

Barina Craft on Tumblr, a popular blog platform, features tips and ideas on home bars along with a shot of humor to help get things started. With an entire website already devoted to Barina Craft's home bar furniture, this new stage will highlight all related topics for choosing, using, caring and most importantly, enjoying your personal pub.

Hosting a specific event or spending time with the people closest to you should always be a special occasion. Most kitchens are not compatible for a variety of reasons, yet without a devoted area elsewhere, this is where many will end up crowding into. Recreation rooms with integral bars solve this problem with dedicated areas for serving food and drinks as well as guest seating and other activity choices.

With a proper venue comes the need to provide variety. No one wants to be bored with the same meal, beverages, theme, etc. Suggestions on bartending tools and equipment, drink and food recipes, interior design and decor along with other aspects will be presented as a source for discovery. Lastly, nothing breaks the ice like sharing a few laughs so comic relief, jokes and other humor will be mixed in.

Barina Craft's new site 'Bars In Your Home' is available online at <http://barinacraft.tumblr.com/>. Convenient access is provided through a range of options including RSS subscriptions using feed readers / homepages, email delivery and by following with Facebook, Tumblr or Twitter.
