

Abacus International Collaborate with PharmaNet Development Group Inc, on Bespoke Patient Registry Solutions

A collaboration with PharmaNet Development Group Inc means there is support for clients in documenting the clinical and economic value of products throughout the entire development process.

November 17, 2010 (FPRC) -- PharmaNet Development Group, Inc, a leading global provider of drug development services to pharmaceutical, biotechnology, generic drug and medical device companies, have a strategic collaboration with Abacus International. The collaboration allows PharmaNet and Abacus to support clients in documenting the clinical and economic value of products throughout the entire development process.

Abacus International understand the importance of gathering patient data in order to observe the natural course of a disease and examine associations between care and outcomes among other factors. Well aware of the fact that effectively designed and developed registries can inform clinical and policy decision making, assess economic outcomes, explore humanistic outcomes including health-related quality of life & other patient reported outcomes.

Abacus International have been providing patient registry solutions since 1999. Experience and clear technical capability recently lead to work with clients like The Royal Free Hospital London and The British Society for Medical Mycology to develop bespoke, web-based electronic data capture software to enable them to accumulate crucial patient information with relative ease.

Abacus International is a specialist health economics consultancy offering services throughout the product lifecycle who pride themselves on being one of the largest independent health economic consultancies in Europe. Delivering health economic, HTA and market access solutions to global and local affiliates of many of the world's leading pharmaceutical and device companies Abacus International's specialist team consists of health economists, medical writers, market access and communication consultants as well as database and multimedia experts.

Abacus International - Bright minds, brilliant outcomes
