

Selection of Artists for Second Edition of World Art Vision, Barcelona - May 19 to June 5, 2011

The Real Círculo Artístico de Barcelona hosts contemporary art show.

January 26, 2011 (FPRC) -- International artists are currently being selected to exhibit at the second edition of World Art Vision. The exhibition is being held from May 19th to June 5th 2011 at Real Círculo Artístico de Barcelona (Royal Artistic Circle), situated in the Barrio Gotico area of Barcelona, Spain.

For 18 days, the artists will have the unique opportunity of exhibiting paintings, drawings, sculpture, photography, prints, installation art, video and digital art and the exhibition will be highlighted by collateral events: presentations, concerts and lectures.

Barcelona, with 1.6 million inhabitants, boasts a lively cultural and artistic life, thanks not only to the galleries, museums and all who dedicate their energy to contemporary art but also to the universities, literary and artistic circles of significant historical importance. This is the case of the Real Círculo Artístico, that was founded in 1881 and is still attended by hundreds of members, who work in the halls of the upper floors of the prestigious Palacio Pignatelli, that also houses the Salvador Dalí Escultor Museum. The area of the Barrio Gotico, the famous Gothic Quarter where the Cathedral, the Ramblas, the Picasso Museum are all located, has recently been declared as the most visited urban area in the whole of Spain.

The Barcelona exhibition is aimed at promoting the artists directly, without the presence of their galleries and it is an opportunity to meet with the other artists present and attend the exciting program of collateral events and of course, to meet the visitors, collectors and critics.
