

## **Claude Penland, Actuary, Releases Timely Presentations on Pandemic Modeling, Insurance Trend and Emerging Risks**

*"40 Insurance Trends for 2011", "10 Emerging Risks for Insurers and Reinsurers" and "10 Influenza Pandemic Models" are released by ClaudePenland.com.*

February 16, 2011 (FPRC) -- Claude Penland, casualty actuary and webmaster, has produced at [ClaudePenland.com/multimedia](http://ClaudePenland.com/multimedia) three informative PowerPoint presentations and videos for underwriters, financial analysts, actuaries, actuarial analysts, accountants, consultants, claims personnel and others in the insurance and reinsurance industries.

The first is entitled "40 Insurance Trends for 2011". Forty insurance trends are considered, including healthcare, health plan grandfathering, asset quality, Takaful, microinsurance, emerging risks, insurance industry job losses, predictive analytics use, as well as other global insurance and reinsurance trends.

The second presentation is called "10 Emerging Risks for Insurers and Reinsurers". These risks include infrastructure, cyber attacks, space weather, nanotechnology and municipal bankruptcies.

A third presentation, "10 Influenza Pandemic Models", profiles models from the Society of Actuaries, Milliman, VirSim, Risk Management Solutions, Military Science, INFORMS, Los Alamos, open source alternatives and others.
