

Motobuys Is Now Offering New SuperTrapp & Kerker Stout Slip-Ons for Harley's

Motobuys now offers the full line-up of SuperTrapp & Kerker exhausts meeting the needs of experienced motorcycle enthusiasts.

March 13, 2011 (FPRC) -- MotoBuys.com, one of the internet's leading powersports online stores, announces the addition of SuperTrapp & Kerker Stout Slip-Ons Exhausts for high performance motorcycles. SuperTrapp Industries is celebrating 40 years of being a leading manufacturer of performance exhaust systems for a variety of motor vehicle applications.

Becoming an official online dealer of SuperTrapp & Kerker products is important to continue MotoBuys rapid growth as the one-stop shop for powersports and accessories."SuperTrapp & Kerker exhausts are extremely popular with many experienced motorcycle riders. Offering their products perfectly aligns with our goal to be the consummate source for all types of Powersports equipment", Gary Kovner, GM of MotoBuys, explains.

The new SuperTrapp & Kerker Stout 4" Slip-Ons meet the requirements of motorcycle riders longing for beautifully crafted, 4" Slip-Ons with a pleasant tone and unsurpassed performance gains. They are available for 1995 - 2011 Harley-Davidson FLH / FLT motorcycle models. These non-tunable, massive 4" Slip-Ons allow motorcycle riders to make a bold statement with their newly developed core which is minimally louder than stock for 2010 - 2011 Harley-Davidson FLH motorcycle models.

SuperTrapp Stout Slip-Ons provide a heavy, broad spread power curve right from idle w/ a 9.3 (16%) hp and 10.5 (14%) torque gain over stock (measured on a stock 2010 Harley FLH). At 95.6 dB @ 2,000 rpm, or 2.4dB over stock, SuperTrapp Stouts are SAE-J2825 sound compliant.

Kerker Stout 4" Slip-Ons utilize a more traditional core which targets a higher spread of power providing more mid range RPM up through redline. Hand-crafted for riding performance, they provide a bold, strong power curve from mid range on up with a 9.6 (17%) hp and 9 (12%) torque gain over stock (measured on 2010 H-D FLH). Louder than the SuperTrapp version, Kerker Stouts are 97dB (per SAE-J2825) or 5dB over stock with that classic Kerker, deep, heavy rumble. Kerker Stouts are bold and predominantly display the Kerker logo.

MotoBuys offers onroad and offroad vehicles including ATVs, Dirt Bikes, Go Karts, Mopeds, Trikes, and a lot more. They also feature state-of-the-art accessories for all their vehicles. MotoBuys is one of the only online powersports dealers to offer parts and free technical support from certified technicians for every product they offer. They provide excellent customer service and invite the public to read their BBB report.
