

MIE QuoteIt – the Complete Quoting/ Estimating Solution for the Enterprise

Developed by Market Leader MIE Solutions, the Newly Introduced MIE QuoteIt Is Ideal for Small & Large Businesses in the Field of Manufacturing

April 8, 2011 (FPRC) -- Quoting and Estimating software packages have become vital prerequisites for reducing time, costs, and errors at different levels of the production chain. Modern solutions now allow organizations in manufacturing – and not only – to achieve the best price and quote possible.

In today's highly competitive market, state-of-the-art Quoting/ Estimating Software modules deliver maximum affordability, functionality, flexibility, and ease of use to a broad scope of users. Irrespective of the size of your company, you too can benefit from the significant increase in productivity such software provides.

When it comes to powerful and all-embracing Estimating / Quoting Software solutions, MIE Quoting Software is second to none in the specialized market. And with the emergence of MIE QuoteIt – the latest estimating software from established provider MIE Solutions Inc. – the veteran company is expected to further consolidate its position in the market.

About MIE QuoteIt

MIE QuoteIt for the enterprise is a server-based sales management solution that enables users to configure, price, quote, propose and sell their offerings across multiple sales and distribution channels, anytime, anywhere. Users can keep a close track of operation costs, as well as establish prices, create assemblies, view history, email request for quotes, attach external documents, and calculate costs. The module is easy to use and simplifies the estimating and quoting process while helping companies reduce errors.

Here are some of the features and benefits of using QuoteIt:

- * Prompt and Accurate Responses to RFQ's
- * Fully Customizable Reports
- * Multiple Divisions
- * Multiple Quotes Per Item
- * Powerful Searching Capabilities
- * Unlimited Variables in Formulas
- * Quote Letters
- * Single or Multiuser
- * Exploded Bills of Materials
- * Handles over 20,000 Piece Assemblies
- * Email Integration
