

CMS Medical Billing Acquired by Physicians Group Management

PGM Billing is pleased to announce that it has completed the acquisition of CMS Medical Billing, an established Medical Billing Company based in Kearny, New Jersey. The acquisition of CMS will enhance PGM's technology platform and physician specialty knowledge base.

May 10, 2011 (FPRC) -- PGM Billing, a leading provider of revenue cycle management, medical billing services and EMR solutions is pleased to announce that it has completed the acquisition of CMS Medical Billing, an established Medical Billing Company based in Kearny, New Jersey. PGM's current CEO, Albert Saviano, will continue in his leadership position with the company.

The acquisition of CMS will enhance PGM's technology platform and physician specialty knowledge base. Al Saviano commented "We are very excited to be partnering with CMS Medical Billing. With this acquisition, we have significantly increased the depth and breadth of our coverage in the market. This represents a significant step for PGM's mission to provide the highest level of customer service in the industry through our technology platform and breathe of client coverage... CMS brings substantial expertise in the medical billing field and healthcare IT sector. With their wide range of physician sub specialties and PGM's comprehensive services, technological platform and unmatched value-oriented sales approach, we will be able to continue our rapid growth and expansion." The closing of this acquisition will streamline all processes and deliverables for clients of both firms. All CMS employees will remain as employees of PGM. Services previously offered by CMS will continue to be available under the PGM brand.

About PGM Billing

PGM is a leading provider of next generation practice management and medical billing solutions to a variety of physician practices ranging from single doctor practices to large hospital-based physician networks. PGM's sole focus is to increase a practice's revenue through the application of targeted technology, robust knowledge bases and best-in-class operating capability. Since 1981, PGM has been providing physicians innovative solutions to help their practices work more efficiently. PGM offers its medical billing products and services to more than 300 physicians across numerous specialties nationwide.
