

## **TutorialsWeb.com: Website Update.**

*TutorialsWeb.com has been updated thoroughly for easy navigation, incorporating a uniform website theme. Existing articles have been revised and several new articles have been added.*

July 6, 2011 (FPRC) -- The website TutorialsWeb has been updated thoroughly. The new features include the following:

1. Top navigation with a drop down menu. The top menu is divided into 5 major categories. These include Electronic Assembly, Satellite Communications, Computer Networking, RF Test and Measurement, and Software. Users will be able to browse through different categories and view the tutorials available.
2. Tools menu: The home page consists of a list of free tools available. These include a, satellite link budget calculator, b, satellite look angle calculator, c, RF tools and calculators.
3. Featured articles: The home page has a featured articles section. These include Surface Mount Assembly and Rework, and Computer Printers and Scanners – A Review.
4. New articles: The home page displays new articles that have recently been added to the website in the New articles section. IP v6 Tutorials, Microsoft VB.NET – Drag-n-Drop Program, and Satellite phones tutorial have been added recently.

The website uses Cascading Style Sheets (CSS) extensively. It has also been checked for compliance with major Internet browsers including Internet Explorer, Mozilla FireFox, Opera, and Google Chrome.

Additionally, each article has been laid out such that the navigation within the article is easy. Path to each page of the website with respect to the Home page has been given so that users landing on any page will immediately know the location of the page with respect to the rest of the website.

The articles that are currently available on the website include Surface Mount Technology (SMT) and Components, Reliability Engineering, Satellite Communications, Satellite Link Budgeting, Computer Networking, .NET development, and others.

More new articles are included from time to time. Please visit [Tutorialsweb.com](http://Tutorialsweb.com) and leave your comments.
