

Managers On The Move At Bibby Consulting And Support

Bibby Consulting & Support are pleased to announce new management appointment and movement.

October 5, 2011 (FPRC) -- Firstly, Jon Taylor has become the new Telemarketing Operations Manager at Bibby Consulting & Support joining the company from rival firm Peninsula Business Services. Based in call centres for the last 15 years, Jon has also worked at Vodafone, Rank Xerox and Auto Trader.

Says Jon: "I chose Bibby Consulting & Support because it is a very strong brand within the industry and offers plenty of opportunity for expansion and growth. I'm delighted to be joining at this time as the firm experiences exceptional success and continues to develop its reputation across various sectors."

He adds: "Telemarketing departments are the foundation of the whole sales process. They are the first point of contact with any prospect and are responsible for positioning the brand as the supplier of choice within the prospect's mind. In this way, the Telemarketing department is absolutely fundamental to the success of the business and I'm looking forward to helping the company to move forward and grow."

Bibby Consulting & Support's second appointment is Bill Collins who has been with the company since 2007 as Environmental Manager and has now become Head of Department for SHEQ (Safety, Health, Environment and Quality). Before joining Bibby CAS, Bill was an avionics technician at the Ministry of Defence.

"It's great to work for a company where what you put in is recognised and rewarded and I'm looking forward to continuing the progress we've made in recent years in building the best SHEQ service in our industry," Bill says.

Michael Slade, Managing Director of Bibby CAS, says of the appointments: "Both Jon and Bill bring highly valued strengths to the team. I'm confident that with them on board we will continue to develop our reputation as a leading force in providing vital support to businesses and organisations on employment law and health and safety legislation."

Adopting the most effective and efficient approach to your Employment, Health & Safety and Environmental challenges is critical. It frees up key people to focus on core business, deliver on customer expectations and helps you to build a strong brand that delivers better performance for your business.

The services we provide are tailored to match the needs of your business and are always delivered with predictable costs. We are also able to show you how by using our Employment Law experts, Health and Safety advisors and Environmental consultants, your business can secure the commercial advantage you need when tendering for contracts.
