

MyCosmetics V1.3 iOS app, Cosmetics and Beauty Products alerts Now in Spanish

My Cosmetics 1.3 app is the best solution to keep track of cosmetics and beauty products. MyCosmetics is designed both for the professional market segment and non-professional users.

October 27, 2011 (FPRC) -- Bubble Surprise announced MyCosmetics 1.3, a unique and innovative lifestyle app for Women.

After the enormous success of MyCosmetics 1.1 and 1.2, Bubble Surprise introduces MyCosmetics 1.3, for iOS devices, now in Spanish Language.

MyCosmetics will be the definitive choice for millions of Women's.

My Cosmetics 1.3 app is the best solution to keep track of cosmetics and beauty products. MyCosmetics is designed both for the professional market segment and non-professional users.

Make-Up professionals, hair-stylists, manicurist, estheticians and all other professionals who work with beauty and cosmetics products, have now a perfect toll to manage their products and simplify their life's.

Fashionists, beauty and cosmetics lovers, have now the ultimate app to organize beauty and cosmetics products, MyCosmetics.

MyCosmetics is the perfect Lifestyle app for Women.

MyCosmetics tracks expire dates, organize cosmetic and beauty products and store your products in your ios device. My Cosmetics also shows expired products and works as portable catalog with photo and product details.

People usually forget when their beauty and cosmetics products were open for the first time. Is also very common that people go shopping, and during shopping they forget about products they already have at home. With MyCosmetics you don't waste money buying another lacquer the same color you have at home!!!

MyCosmetics app is definitely one of the most simple and efficient solutions to organize and keep track of expiration dates of cosmetics and beauty products.

Device Requirements:

- * iPhone, iPad and iPod touch
- * Requires iOS 4.3 or later
- * 0.4 MB
