

Titanium-Jewelry.com Announces Release of Cobalt Rings

Online retailer offers features more than two dozen cobalt rings perfect for weddings

November 1, 2011 (FPRC) -- (Modesto, Calif.) Titanium-Jewelry.com, a premier online retailer of men's jewelry, titanium rings, and tungsten rings, is proud to announce the addition of cobalt wedding rings to their collection. Titanium-Jewelry.com offers more than two dozen new cobalt wedding bands that are perfect for that special day.

'It used to be that gold or platinum was the only way to go when men were looking for wedding bands,' says Ron Yates, founder of Titanium-Jewelry.com. 'With both precious metals at near record prices, though, things have changed. Today soon-to-be-newlyweds are turning to a wide variety of newer alternative metals for their wedding bands, which is why Titanium-Jewelry.com is proud to be adding dozens of cobalt wedding bands to their already thorough selection. Of all the contemporary metals out there, cobalt stands out from the crowd thanks to its bright white color. Not only is cobalt whiter than palladium, but also scratch-resistant and shatter proof. In addition, it's also a lot more affordable than getting a wedding band made from the more 'traditional' metals, such as gold or platinum. It's the best of all worlds, which is why men are beginning to choose cobalt when it comes time to pick out their wedding bands.'

In addition to Titanium-Jewelry.com's large selection of titanium, platinum and tungsten jewelry, the company has added nearly 30 cobalt wedding band options to their collection, with more being added each week. The bands can be customized to a customer's specific needs, and vary from basic rounded styles to more complex mixes with rose gold or black ceramic, as well designs with diamonds. Titanium-Jewelry.com offers sophisticated designs from ArtCarved, Benchmark, COGE, Diana Classic, Edward Mirell, Heavy Stone Rings, J.R. Yates, Triton and the Belloria Black Diamond collection for her. Enticing grooms and couples worldwide, the online retailer provides a multitude of styles and metals representing the best selection of palladium rings, titanium rings, tungsten rings, and men's wedding bands for the fashion forward male and female.
