

WorkoutHealthy Introduces the EVO ix Indoor Cycle Bike for Health Conscious and Cardio Buffs

WorkoutHealthy introduces its new line of EVO Workout Bikes by Relay Fitness Group. The EVO ix Indoor Cycle Bike for home or light commercial users is highlighted in the release below.

November 3, 2011 (FPRC) -- For people, who want to dredge the fat completely out of their body, 'WorkoutHealthy' has a special exercise bike in store for them. Known as the EVO ix Indoor Cycle Bike.

Other than that, fitness junkies are always welcome to hang on to this website's huge collection of health oriented articles and target driven content.

Coming back to the EVO ix Indoor Cycle Bike, this product belongs to a special class of Relay Fitness Group bikes - one of the many models available at 'WorkoutHealthy'. To know more about this intriguing exercise bike, head over to <http://www.workouthealthy.com/RelayFitnessGroup-EVOix-Indoor-Cycle-Bike-Light-Commercial.html>.

'WorkoutHealthy', to users who've already been visiting this website, is known as a web log of explosive exercise regimens, workout products and a multitude of informative content. Visitors not only sift through the occasional and highly unbiased product promotions, at this website, but they also love to read articles that attend to rising health issues and various workout techniques in general.

The only reason 'WorkoutHealthy' is at its toes for creating awareness regarding the EVO ix Indoor Cycle Bike, is because of the morbid realization that an average guy doesn't have extra time available for those "special" gym trips. For at home exercise types, corporate sectors and office lovers, the EVO ix Indoor Cycle is more of a sweet excuse for not skipping a demanding exercise routine on a frequent basis.

More so, according to Relay Fitness Group, they wanted to create a special class of EVO Bikes that would intrigue its riders in terms of letting them recapture their childhood memories, whilst they're in the middle of an intense fat burning process - Call it a unique combination of science and customer psychology; something that none of the other companies have been able to deliver so far.

The Significance of EVO ix Indoor Cycle Bike According to 'WorkoutHealthy':

The EVO ix Indoor Cycle Bike falls under the category of modern sway bike products. These exercise bikes are loaded with state of the art technology which features a calculated swaying motion and long term product durability. As a result, while in use, the rider is free to push the swaying motion to its limits, which, in return, gives the impression of a real bicycle ride.

Health conscious folks, who're visiting the 'WorkoutHealthy' website for the first time, can expect to stumble upon a plethora of information about Relay Fitness Group Bikes or any other workout equipment.

For more interesting information about the EVO ix Indoor Cycle Bike, or to check out the complete collection of Relay Fitness Group Bikes, immediately visit the 'WorkoutHealthy' website at www.workouthealthy.com.
