

## **SimulationExams.com Revises Security+ Practice Tests**

*SimulationExams.com, a leading practice tests provider, revised CompTIA Security+ SY0 301 practice tests. The practice tests provide a simulated test environment for candidates, enabling them to take the exam with confidence. 250+ questions are available, and all questions carry detailed explanations. Question types include multiple choice questions, drag-n-drop, and others as normally encountered in the real exam*

November 16, 2011 (FPRC) -- SimulationExams.com, a leading practice tests provider, revised CompTIA Security+ SY0 301 practice test. The Security Plus practice tests offered by SimulationExams include 300+ questions and provide a simulated test environment for candidates and facilitate taking final exam with confidence. All questions carry detailed explanations. Question types include multiple choice questions, drag-n-drop, and others as normally encountered in the real exam

The exam objectives covered in the practice tests include Network Security, Compliance and Operation Security, Threats and Vulnerabilities; Application, Data, & Host Security, Access Control, and Cryptography.

The advantages of a simulated exam are:

- Ability to gauge one's preparedness to take actual certification exam
- To prepare for the exam objectives thoroughly from a different perspective (from the study guides)
- To familiarize oneself with actual exam environment (such as timed test, scenario based questions, etc.)

Other CompTIA practice tests available from SimulationExams.com include A+ Essentials, A+ Practical Applications, and Network+. Other practice tests available include Cisco Certified Network Associate (CCNA 640-802), CCNP BSCI (642-901), Cisco Certified Entry Network Technician (CCENT), and others.

The Exam Engine provides an integrated test environment, wherein, the candidate will be able to check for upgrades, and register the full version online using program interface seamlessly soon after purchase. The candidates will be able to download the demo versions of any other practice tests offered by SimulationExams.com using the test engine program interface.

About Security+ Certification: The Security+ certification is awarded by CompTIA. The exam is intended for candidates having experience in configuring and managing computer networks security. Security+ Certification is one of the most widely recognized certification in the field of computer and network security. Security+ exam is targeted for computer service technicians.
