

## **SimulationExams.com Releases Server+ Practice Tests**

*SimulationExams.com, a leading practice tests provider, revised CompTIA Server+ SK0-003 practice tests. The practice tests provide a simulated test environment for candidates, enabling them to take the exam with confidence. 250+ questions are available, and all questions carry detailed explanations. Question types include multiple choice questions, drag-n-drop, and others as normally encountered in the real exam*

November 23, 2011 (FPRC) -- SimulationExams.com, a leading practice tests provider, revised CompTIA Server SK0-003 practice tests. The Server plus practice tests offered by SimulationExams include 300+ questions and provide a simulated test environment for candidates and facilitate taking final exam with confidence. All questions carry detailed explanations. Question types include multiple choice questions, drag-n-drop, and others as normally encountered in the real exam

The exam objectives covered in the practice tests include System Hardware, Software, Storage, IT Environment, Disaster Recovery, and Troubleshooting.

The advantages of a simulated exam are:

- Ability to measure one's preparedness to take actual certification exam
- To prepare for the exam objectives thoroughly under simulated exam environment
- To familiarize oneself with actual exam environment (including timed test, scenario based questions, etc.)

Other CompTIA practice tests available from SimulationExams.com include A+ Essentials, A+ Practical Applications, and Network+. Other practice tests available include Cisco Certified Network Associate (CCNA 640-802), CCNP Route (642-902), Cisco Certified Entry Network Technician (CCENT), CCNP Switch, CCNP TShoot, and others.

The Exam Engine provides an integrated test environment that allows the users to check for upgrades, and register the full version online using program interface. The candidates will be able to download the demo versions of any other practice tests offered by SimulationExams.com using the test engine program interface.

About Server+ Certification: The Server+ certification is awarded by CompTIA organization. The exam is intended for candidates having experience in configuring and managing server computers (particularly Windows based servers). Server+ Certification is one of the most widely recognized Comptia certification in the field of computers and networking.
