

## **Concierge Services In Las Vegas Are Now Available For Travelers And Locals Too**

*Hotel-like Concierge Services Made For Nearly Anything A Las Vegas Vacation Renter Would Want To Have Or Do In Sin City*

December 6, 2011 (FPRC) -- Travelers to sin city will often consider staying in a vacation home rental when making their trip to Las Vegas. And with good reason too. Vacation home rentals offer privacy and peace, while still giving travelers all the excitement of the Strip only moments away. Even with that great privacy advantage though, one of the drawbacks of Las Vegas vacation rentals is the loss of the services provided by that wonderful hotel concierge.

When coming to Vegas, both business and leisure travelers enjoy having access to the concierge service when they want it. And it's no wonder, for dinner reservations, show tickets and even arranging an airplane tour of the western Grand Canyon, the concierge is the valuable go-to agent for all that. However thanks to a local company, Las Vegas Concierges, it is possible for almost anyone to have the same services without the Strip hotel.

By serving the Las Vegas traveling public for many years now, they have decided to open up their service to the local public as well. By serving thousands of customers for the companies of Las Vegas Retreats and Sin City Vacation Rentals, they have amassed tremendous experience servicing Las Vegas travelers. Now as they make their services available to the other Las Vegas travelers, vacation home renters can enjoy an experience much more like the concierge services at the hotel.

Las Vegas Concierges has an extensive menu of services created specifically for typical business travelers. These include assisting with convention and expos needs and the related issues and the logistics that go along with it. They also offer services for group travel and group lodging.

For the vacation travel services, they offer everything from show tickets to helicopter rides and indoor and outdoor skydiving. Being a fully comprehensive concierge service, they also have many services intended specifically for locals covering everything from dog walking to meeting your domestic appointments with cable TV installers, home inspectors or almost any other appointment at the home that you can't make yourself.

Las Vegas Concierges has new offices located on the Las Vegas Strip next to the Factory Outlet Mall. From this convenient location, they can assure an efficient service to all of Las Vegas Valley. By showcasing nearly all of the top ranked vendors in town, they will surely become an invaluable service for anyone.
