

## Lake District Cottages Still Available For New Year

*Goosemire Cottages are pleased to announce discounts on remaining New Year weeks as well as short breaks available.*

December 23, 2011 (FPRC) -- Goosemire Cottages, based in Kendal, know all too well that New Year celebrations and plans can often be overlooked due to the organisation of Christmas festivities. But there needn't be any worry of what to do for New Year as Goosemire Cottages are not only offering discounts on the remaining Lake District cottages available for the New Year week but short breaks are available on selected properties too.

Even though Christmas has fallen on a weekend this year meaning many people in employment have the enjoyment of over a week off work, with family commitments and parties it isn't always possible to be away for a whole week. Get the best of both worlds with a New Year short break in one of Goosemire's stunning Lake District cottages. The Lake District is a year round destination but it really comes into its own over the festive period due to its great hospitality and stunning views. What better than to walk off those days of over indulgence on the endless paths and fells throughout this region.

It's simple to check availability for the New Year period through Goosemire's live availability charts and booking system. Short breaks are clearly marked and can either be booked online or by telephone.

Goosemire have a varied selection of Lake District cottages to choose from including rustic 17th century cottages through to modern interior barn conversions. What they all have in common are high standards and spectacular locations such as within the Eden Valley across to the Western Lake District in the Wasdale area. Being a small, family business, Goosemire Cottages are able to offer low prices without any slip in standard of property or service. As well as offering low prices, Goosemire also have a "Pets Go Free" policy in most of their cottages in the Lake District meaning even Fido can join in the New Year celebrations. A note regarding the dog friendly cottages can be found next to each cottage description.
