

Demon's Cycle Launches New Custom Stretched Gas Tank for Harley-Davidson Baggers and Dressers

Larger 6.6 gallon fuel capacity allows for longer non-stop trips.

January 17, 2012 (FPRC) -- Demon's Cycle Inc., a custom motorcycle builder and custom motorcycle parts supplier, is pleased to announce the release of its new custom stretched gas tank for the Harley-Davidson FLH Bagger. The key feature is the large 6.6 gallon fuel capacity which allows for longer non-stop trips.

The one-piece stretched unit has a custom steel dash and fits the 2008 to 2011 Harley-Davidson Touring FLHT/FLTR models and it can be fitted, with minor modifications to the 2003 – 2007 Touring Dresser models.

“We are very pleased with our new custom tank for the Harley Baggers,” said Tom Steinbacher, owner of Demon’s Cycle. “It is similar to the Paul Yaffe's Originals / Bagger Nation gas tank, but its greater fuel capacity and better build quality makes a better choice for custom bike builders.”

Gas tanks are part of the integral design and style of a motorcycle and as such the new wider custom tank from Demon's Cycle provides flowing and elegant lines that perfectly compliment the stance of the Harley-Davidson Bagger. With custom stretched low profile steel dash, chrome pop-up gas cap, rubber trim and all the necessary mounting brackets, this 28 inch long, 19 inch wide tank provides style, beauty and long range.

About Demon's Cycle

Demon's Cycle is an multi-million dollar international custom motorcycle wholesale company that sells direct to the public. Based in Pompano Beach, South Florida, Demon's Cycle was started more than nineteen years ago by Tom Steinbacher and has a reputation as a pioneer of radical motorcycle designs, Euro style bikes and custom chopper concepts. Demon's Cycle is an international custom motorcycle wholesale company that sells to the public direct. As well as building custom motorcycles and selling rolling chassis, Demon's Cycle specialize in the sale of custom parts for Harley-Davidson motorcycles. They offer a wide range of parts including gas tanks, handlebars and all the necessary auxiliary components like air cleaners and wheels.
