

Instant Checkmate Awarded A- Rate From the Better Business Bureau

Las Vegas based Instant Checkmate was awarded the top rating for its high satisfaction ratings among its customers. Instant Checkmate provides a comprehensive background check on individuals using vital statistics, financial information, property ownership records, criminal and civil court records and other public record databases.

February 3, 2012 (FPRC) -- Instant Checkmate LLC, top background check service , has received a top rating from the Southern Nevada Better Business Bureau. Las Vegas based Instant Checkmate received the top rating for its high satisfaction ratings among its customers. Instant Checkmate provides a comprehensive background check on individuals using vital statistics, financial information, property ownership records, criminal and civil court records and other public data databases.

Instant Checkmate provides services nationwide to both businesses and individuals alike. Searches are performed anonymously online and reports are delivered to the subscriber real-time. The service is popular among landlords, homeowners, parents and individuals who participate in online dating services. Consumer response to the company has been highly positive, since it was first launched three years ago.

Instant Checkmate also developed improved processes to help boost the authenticity and accuracy of its data. In today's economic climate, decisions based on uninformed business intelligence can have consequences for the finances and reputation of nearly any company. Instant Checkmate helps to ensure that landlords and other business professionals have a complete picture of prospective tenants or business partners before making rental and other business decisions.

Instant Checkmate also helps to ensure the safety and security of families, children and single adults. By aggregating data from highly accurate sources and compiling information into a single dossier, parents can make better decisions about the risks posed by prospective childcare workers, new neighbors, doctors, tutors, service providers and others who may come into contact with a family. Individuals can also make more informed decisions about the risks associated with more intimate personal relationships with prospective partners they've met online or in person.

About InstantCheckMate.com

Instant Checkmate is an online background check service available to both businesses and individuals on a subscription basis. Results include comprehensive federal, state and local criminal background checks, including sex offender registries, along with publicly available records stored in public databases.
