

Demon's Cycle Launch New Range of Fat 48 Spoked Wheels Including Designs with Massive Spokes

The custom motorcycle parts supplier, Demon's Cycle, has unveiled a new line of massive 48 spoked wheels including designs with massive spokes.

November 8, 2012 (FPRC) -- Demon's Cycle Inc., a custom Harley motorcycle builder and custom motorcycle parts supplier, is pleased to announce that it has added a new line of spoked wheels to its already extensive wheel collection. The new wheels include those with massive spokes ; come in a variety of standard and custom sizes; and have a chrome or black finish.

The new Fat Mammoth 48 spokes wheels fit custom Harley-Davidson motorcycles with 130, 150, 200, 250, 300 wide rear wheels. There are also sets to fit Harley-Davidson Softail, Fatboy, Delux, Dresser, FLH models and custom designs.

The wheel design includes thick spokes of high-polished stainless steel, which have a triple plated chrome or powder coated black finish. All the wheels in the range come with billet hubs and sealed bearings. The rim is sealed for use with tubeless tires.

“When you look at a motorcycle, what is the first thing that catches your eye?” asked Tom Steinbacher, owner of Demon’s Cycle. “For me it is the wheels. They define the machine. By changing the wheels on your motorcycle to ones with thick spokes, you can radically alter the way your motorcycle looks.”

Demon's Cycle strives to offer low cost parts for custom motorcycles without sacrificing quality. The craftsmanship and quality of the Fat Mammoth 48 spokes wheels is surpassed by none and Demon's Cycle is proud to add them to its wheel line-up.
