

London Plumbers Now Offering Fully Guaranteed Boiler Repairs and Installations

The team at Ability Plumbers have announced that they are backing up their workmanship with full guarantees for plumbing customers who require boiler repairs or installations.

January 23, 2013 (FPRC) -- The London-based firm is now providing competitive written guarantees for all work undertaken by its qualified engineers throughout the capital.

The length of the guarantee offered will depend on the nature of the work that has been carried out. If the engineer has changed or replaced a part, or undertaken basic boiler repair work, the guarantee period will run for one hundred days from the date of completion. If a brand new boiler has been installed, or pipework has been entirely replaced, Ability will provide a twelve month guarantee as standard. Guarantees can usually be upgraded on request, though the end agreement will depend on the job and the area in which the work has been completed.

A representative from Ability explains why offering such extensive guarantees demonstrates to customers that he and his team are confident in the level of service they have to offer.

“Our reputation is extremely important to us. We pride ourselves on delivering workmanship that our customers can truly rely on,” he says.

“We want to prove that we have our customers’ best interests at heart, so feel that offering such lengthy guarantees on our services will give them the peace of mind they need. After all, the boiler is a crucial part of any home and so our clients find it reassuring to think that if any part of it breaks down so soon after installation, our team will be on hand to solve the problem as soon as possible.”

Please note that Ability Plumbers does not warranty any parts or products, only the workmanship of its employees. Parts or product sold by the company are subject to the manufacturer’s terms and conditions. If the part of product is deemed to be faulty, Ability will endeavour to follow up the grievance with the manufacturer in question. Please contact the firm for more information.

Ability Plumbers employs qualified, experienced and Gas-Safe plumbers in London. The team operate a 24 hour callout service and are famed for their fast response times, with many of their customers reporting attendance within just 45 minutes of their call.
