

Sure Payment Solutions Teams Up with ALS Association To Fight Lou Gehrig's Disease

Sure Payment Solutions, the NYC business services and financing company, said it will once again donate all winnings from its Merchants Cash Advance Fantasy Football title to the ALS Association to help in the fight against Lou Gehrig's disease.

September 30, 2013 (FPRC) -- New York, N.Y. - Sure Payment Solutions, the New York City-based small business finance company, is ready to defend its Merchant Cash Advance Fantasy Football League (MCA) title with all proceeds being donated to the ALS Association (amyotrophic lateral sclerosis) should they repeat as league champions.

Paul Giuffrida, managing partner at Sure Payment Solutions, has been involved with the ALS Association since he was a teenager and has special reasons for choosing to play for ALS. Giuffrida lost his grandmother to ALS when he was 17 years old. "When I found out that we would be playing for charity I immediately wanted to play for the ALS Association," said Giuffrida. "They do such wonderful work and I know firsthand just how devastating this disease can be."

Paul's understanding of the overwhelming consequences of ALS became more acute when his uncle and namesake died this past October at the age of 54 after fighting a five year battle against ALS. "I will never forget when I told my aunt that we won our league and that we would be making a donation to the ALS Association in my uncle's honor," commented Giuffrida while speaking about winning the 2012 MCA. "She looked at me, unable to speak, gave me a hug and cried in my arms."

When they aren't dominating the MCA Fantasy Football League and supporting the ALS Association, Sure Payment Solutions focuses all of its energies on providing affordable working capital programs and other financial services for small businesses. Now in its 4th year, Sure Payment Solutions specializes in business lines of credit, merchant funding, unsecured small business loans and accounts receivable factoring. They also provide a number of other financial services including credit card processing and credit repair.

"We strive to be a one-stop shop for a small business owner's financial needs," says Sure Payment Solutions managing partner Anthony Giuliano. "We'll help you set up your payment processing, make sure your credit stays strong, and make sure you have the money in your pocket to grow your business."

The Sure Payment Solutions team is focused and looking ahead for both its clients and their favorite charity. "As the world shifts to a more technological and data driven approach, we are attempting to incorporate new technologies without losing the human element; the human touch," said Giuffrida. By donating the prize money from their 2012 MCA Fantasy Football League Championship to the ALS Association, and hoping to repeat their title and financial gesture in 2013, the human touch would seem to be the favorite play in the Sure Payment Solutions playbook.
