

Balkan Plumbing Adds R. D'Attile Sewer and Water Main Contractor Clients

Balkan Plumbing of Richmond Hills, N.Y. and R. D'Attile Sewer and Water Main Contractors have just closed a deal that will see the client base of D'Attile being taken over by Balkan Plumbing.

August 12, 2014 (FPRC) -- Richmond Hill, N.Y. - Balkan Plumbing announced today that the Richmond Hill, N.Y. company has finished a deal with industry colleagues R. D'Attile Sewer and Water Main Contractors. The result of the friendly takeover is that Balkan Plumbing will take over the R. D'Attile client list following Robert D'Attile's decision to leave the plumbing and contracting business after 40 years of continuous service in the industry.

David Balkan, owner of Balkan Plumbing commented on the deal saying, "I've known the D'Attile family personally and through business for over 40 years. I am honored that they have counted on the Balkan team to continue their tradition of fine service."

Balkan Plumbing is the largest family owned sewer and water main company in New York City. The company specializes in all sewer and water main projects including DEP notifications and violations, service line disconnections, sewer check valves and gates, private mains and fire sprinklers, installations and upgrades, repairs and replacements, sewer alarm and spill monitoring and manholes, catch basins and drains.

R. D'Attile Sewer and Water Main Contractors has been in business for over 40 years. The company has earned a solid reputation in the local community as well as in the plumbing industry. So, when Robert D'Attile decided to pursue other interests, he had a tough decision to make regarding who to trust with the family business. At the end of the day the mutual respect and trust between D'Attile and Balkan was the deciding factor in D'Attile opting for David Balkan and Balkan Plumbing. A handshake sealed the deal and the two client bases were combined in short order.

"We talk on a regular basis," said Balkan in referring to his relationship with Robert D'Attile. "He (Robert) still provides a lot of guidance about how to take care of his old customers."

Balkan Plumbing now has a much larger list of clients to service so it wasn't long after the deal was made with D'Attile that David Balkan announced that the company would be hiring additional workers to make sure that all of the customers are being serviced properly. The company is actively seeking fulltime, year-round backhoe operators and crew leaders to handle the increased load.

About Balkan Plumbing: Balkan Plumbing is a full-service sewer and water main contracting business located in the Richmond Hill section of Queens, N.Y. The company was established in 1952 and has been servicing the greater NYC metropolitan area ever since. Balkan Plumbing is the oldest subsurface plumbing firm operating under the same family name in NYC.
