

Purely Natural Cosmetics Becomes the First Online Retailer to Stock the Plantae Skincare Range in the UK

Purely Natural Cosmetics is the first online retailer in the UK to offer the Plantae skincare range.

January 26, 2015 (FPRC) -- Purely Natural Cosmetics (often abbreviated to PNC) has been chosen to be the very first online organic product retailer in the UK to stock the brand Plantae. Located in the beautiful city of Nelson, New Zealand, a region known for the abundance of arable lands, picturesque landscapes, and organic crops, Plantae is formulated mainly using ingredients sourced from local organic farms.

PNC only offers a range of certified organic skincare and cosmetics from a variety of organic brands, including established ranges from MiEssence, Redmond Trading Company and Organic Essence.

Plantae is a certified organic brand that's endorsed by BioGro, which is the leading organic certifying authority in NZ. Plantae gained its certified organic status for its products from meeting a strict set of guidelines issued by BioGro, including the required high percentage of organic and natural content, the accepted manufacturing process, no GM ingredients, no animal testing, ethical farming and environmentally friendly packaging amongst others.

Plantae was launched in 2012 by Carol Priest, an acclaimed organic skincare expert with over 20 years' industry experience, with a vision to produce plant-derived skincare using mainly the New Zealand sourced organic skincare ingredients, which are known to be of the exceptional quality.

Company founder Carol Priest says:

"Each product contains a unique and simple blend of proven botanicals. No mineral oils are used. Instead, oils and emulsifiers extracted from plants act as carriers for the principal ingredients. All colours are derived from natural sources. Synthetic fragrances, responsible for most allergic skin reactions, have been replaced with the subtle, natural fragrances of unadulterated essential oils. It is this careful selection of the purest ingredients that ensures a natural, and certified organic and professional range of skincare products, unrivalled for freshness, quality and impressive results."

The team at PNC are incredibly proud to offer Plantae products via their online shop, as they feel that the Plantae brand fits in perfectly with their company ethos. The Marketing Manager for PNC, Jana Cevelova, says:

"Everyone here at Purely Natural Cosmetics is extremely excited that we are the first online supplier of Plantae here in the UK. Carol's dedication to organic living is something to admire, and we share her passion for high quality ingredients, notwithstanding the price of the products, which is more than reasonable. We are looking forward to a long and fruitful business relationship with Plantae."

PNC is dedicated to offering only the very best in organic skincare and are currently running a sale on the website that runs across a variety of brands. Selected Plantae products are being sold at up to 25% off of the original price, so customers looking to try organic skincare brands are able to see how Plantae products can make a difference to their skin without breaking the bank.

Boilerplate:

Purely Natural Cosmetics is a family-run online shop that was established by people who are passionate about what nature can offer the body. The supplier is fully focussed on offering only certified organic products. Stocking pure and natural items that range from skincare, haircare and cosmetic products to oral care, health food products and supplements.
