

## **Locksmiths Brighton Launches New Website To Promote Their Services To Locals Online**

*Locksmiths Brighton serves the Brighton and Hove area, and has just launched a new website with the latest local SEO built in to organically attract more customers from the area.*

Brighton and Hove, East Sussex -- February 12, 2016 (FPRC) -- Locksmiths services are essential for anyone who wants to be able to protect their valuables and loved ones. The unfortunate downside of locks is that keys are less than perfect, and can be broken, damaged or lost at the most inconvenient times. Fortunately, locksmiths can help people regain access to their homes, cars and other property in a timely and expedient manner. Locksmiths Brighton has been serving their local area for forty years, and has now launched a new website to ensure no one in the area can miss them when searching for Brighton Locksmiths online.

The new website is fully responsive and imbued on every page with the latest locally optimized SEO strategies to ensure that the website can be easily and organically found by people in the Brighton and Hove area searching for such services online. The website also has a full accounting of their team and services so people can quickly make an enquiry.

The site also has no small amount of feedback from existing clients ( [locksmiths-brighton.com/testimonials/](http://locksmiths-brighton.com/testimonials/) ) which attests to the companies impressively rapid response, expertise and comprehensive suite of tools for dealing with everything from the simplest to the most complex tasks. There is even a news section to keep people abreast of the latest developments in the security and locking industries.

A spokesperson for Locksmiths-Brighton.com explained, "We are thrilled to be able to launch our brand new website, which will enable us to promote our services more effectively in the twenty first century, and allows us to bring decades of experience to a new generation of customers who now search almost exclusively online for the services they need. We are very pleased with how the website reflects our brand, our values and our expertise, and we look forward to meeting new clients because of it."

About Locksmiths Brighton: Locksmiths Brighton's team of experts has over 40 years of experience in the Brighton & Hove area, and offers lock out services together with installation of new locks, installation of home security systems and safes, assistance with fixing broken locks and more. The company is customer focused and offers 24/7, 365 callout assistance, with a rapid response policy that will see a master tradesman on site within thirty minutes.
