

Green Jeans Creative launches our new website for 2016!

Green Jeans Creative kicks off 2016 with the unveiling our redesigned website and announcement our new and improved services.

February 23, 2016 (FPRC) -- A new year is here and our Green Jeans Creative team is more excited than ever! We're pleased to announce the launch of our new website with a responsive layout, user-friendly navigation, and updated with portfolio pieces to better showcase our capabilities.

This launch gives us the perfect opportunity to brag about how our web design services were brought in-house in 2015. We are not only offering more services, but the right services to help our clients grow. Our full suite of web development services include:

- ● Responsive web design and development;
- ● Intuitive user interfaces to enhance user experiences;
- ● Email marketing strategies and implementation;
- ● Customization of website elements to fit your business needs;
- ● Form-building for lead generation;
- ● And, we can even redesign current websites to be responsive!

Our new site is already helping us better serve you, our clients, as we kickstart 2016 with a new look for our company.

If you're looking for a new website or wanting to revamp your old one, here are some services that we offer that might be helpful to you:

Optimization Services

We optimize your site to load faster and boost your search engine rankings.

Web Development

Whether you need Wordpress theme development or an entirely custom front-end design, we can help.

Responsive Design

We update your current design to be responsive so user experience is streamlined on all devices.
