

STIGER YOUTH DEVELOPMENT GROUP CREATES the WORKING SINGLE PARENTS CHILDCARE FUND

Stiger Youth Development Group is a nonprofit dedicated to helping young people of all ages to reach their full potential and become the Leaders of Tomorrow TODAY. One of the way we help children develop is by helping Families. Paying for childcare is one of the largest expenses for working single parents as they attempt to meet the daily challenges of working and parenting.

May 6, 2016 (FPRC) --

Our current focus is on early Childhood Development and the issue of extremely high cost for Daycare. Our mission is to help Children by helping Families. The Monthly childcare is the largest expense many families have to budget for.

Childcare for a 4-year-old in a center costs an average of \$6,414 per year. It's been going up in small increments every year. It can be half of a single parent's mortgage or rent. Nowadays, many families rely on two incomes, so having one parent stay home full-time to care for children is not an option for a working single parent.

The 2015 Care.com Report states that the weekly average cost of a nanny for one child is \$477, while only \$488 for two children. The average weekly cost of a day care center is \$188 for one child and \$341 for two. Your generous donation could be the difference this month for a struggling working single parent.

We want to partner with Businesses and individuals who's tax deductible contributions will go to create a Daycare Scholarship Fund . We will reach out and build relationships with community Daycare providers who can serve as the resource to refer young families to the Daycare Scholarship Fund when they need assistance. This allows the Service provider to get paid for the service rendered and helps a young working family when it needs help the most.

We ask you to join us in helping young families This is Your Time to Shine.
