

Coleman Legal Group, LLC Now Offering Weekend Appointments

Coleman Legal Group, LLC is now offering weekend appointments for consultations and meetings in the Alpharetta, Atlanta, Cumming and metro-Atlanta area for existing and prospective clients.

September 25, 2016 (FPRC) --

Coleman Legal Group announced today a new firm policy by which an attorney will be available most weekends in their respective offices for weekend consultations, meetings and appointments.

Coleman Legal Group, LLC is an Alpharetta, GA based law firm serving the metro-Atlanta area in the areas of divorce, family law, bankruptcy, business and wills / trusts.

According to the firm's owner and managing partner, Danny Coleman "Many of our clients had been asking for weekend appointments, and it was just a natural service we felt we needed to offer." Appointments for weekend meetings with an attorney need to be scheduled in advance, with appointment times starting at 8:00 am on a Saturday and ending in the early afternoon.

Coleman Legal Group, LLC values their client's privacy, time and ability to reach out to the firm at times and days are not just during the traditional business hours most firms offer. Coleman Legal Group, LLC will introduce the new expanded hours starting October 1, 2016. In addition, phone consultations, including limited free phone consultations, can be scheduled for the weekends for divorce, family law, bankruptcy, business and other legal needs the firm offers.

It is the hope Coleman Legal Group, LLC that people in need of qualified and experienced attorneys and advice will take advantage of this unique service. The plan to offer weekend appointments and meetings has been under development for the past three months, with the firm's attorneys making plans to adjust their schedules to make sure that all weekly meetings are handled along with the anticipated influx of weekend appointments.

Danny Coleman, owner and managing partner at Coleman Legal Group also went on to add "We have had a very positive response to our trial offering of weekend appointments in the month of September 2016, and we are confident that this will be a great success and appreciated by the community."
