Ehud Segev is launching an online learning platform for his fans.

November 5, 2016 (FPRC) -- Mentalist Ehud Segev has today said that he'll launch an exciting online courses program for his fans. Through this platform, the mentalist will share knowledge and insights on cryptic subjects such as body language, the innate powers of the mind, mysticism, mind reading and more. This is fascinating news for body language enthusiasts and mentalist fanatics from all over the world.

Ehud Segev is a globally recognized mentalist. By definition, a mentalist is a performing artist who appears to demonstrate highly developed intuitive and mental abilities. Ehud goes by the trade name 'The Mentalizer', which has been derived from the phrase Mental Analyzer.

Mr. Segev was born in the Israeli city of Safed, which for a long time has been the spiritual epicenter of the Jewish world. While growing up, Ehud spent most of his time at the local library, reading books on mind reading and other cryptic subjects while his peers were outside playing. At the age of 16, he featured in Israeli news for the first time. His powers to entertain, read minds, decode body language and perform caught the attention of local audiences. By the time he was 19, he successfully predicted the outcome of a mayoral election in a local town, stunning citizens and winning national repute.

Ever since his late teenage years, Ehud has traveled the world. He has entertained guests at parties and corporate events in New York, London, New Delhi, and dozens of other cities. Ehud's work has been featured on major international TV and news platforms. He was once featured on the NBC hit show, 'Phenomenon'. The mentalist's performances for U.S. service members also won him an EB-1 classification from the U.S. Department of Homeland Security.

Considering the Mentalizer's influence and media status, the new courses will probably attract thousands of his fans. Interested users will only need to subscribe to a form at the mentalizer's official website – www.mentalizer.com. Fascinating learning materials will then be dispensed on an ongoing basis via email.
