

Ehud Segev to Launch Brain Mastery Workshop

Ehud Segev, aka The Mentalizer, will launch a Brain Mastery online workshop

November 10, 2016 (FPRC) -- Mentalist Ehud Segev has said that he is working on launching a brain mastery workshop that will be operating online. The goal of this program will be to help people tap into the inner powers of their minds, and developed their skills. Already, the mentalist has conducted multiple physical workshops in cities around the world, educating guests on how they can improve their mental prowess and productivity by following a secret set of simple activities.

Ehud Segev is a globally acclaimed mentalist. Wikipedia defines mentalism as a performance-based art in which its practitioners (referred to as mentalists) exhibit highly advanced intuitive and mental abilities. Among other skills, mentalists appear to be experts in fields such as hypnosis, mind control, psychokinesis, precognition, clairvoyance, telepathy, divination, and mediumship. They are also commonly categorized as psychic entertainers. Modern mentalism lays its focus on tests of supernatural powers that were carried up by spiritualists and psychics in the 19th century. And contrary to magic, which is all about illusions or tricks, mentalism has everything to do with mental feats.

Ehud was born in Israel in 1979. While growing up, he invested a massive chunk of his time studying books on mentalism and related topics at the local library. At one time, the local librarian was so alarmed at the young boy reading cryptic texts that he asked him to bring his mother's signed permission. This period of time laid the basis for Ehud Segev's modern day skills. Ever since he was 19 years old, he has accomplished numerous newsworthy feats. At one time, he predicted the winner in a mayor's election after just looking at face photos. Ehud has entertained U.S. soldiers around the world, a job he did so well that he attained the EB-1 special award from the Department of Homeland Security. He has also starred on multiple TV shows, and even appeared on 'Phenomenon', a recent hit show by NBC. On TV, Ehud has exhibited extraordinary skills, such as being able to read minds, bending spoons with his mind, and sending credit cards flying without even touching them. He possesses an innate talent to make people laugh, which has greatly contributed to his popularity around the world.

It appears that the new brain mastery workshop will be all about sharing some of the mentalizer's skills with his audiences. Hannah Tiram, a PR employee at Mentalizer Education (Ehud's Education Outfit), said "The Mentalizer is working on launching a new brain mastery workshop that will be conducted online. This has been inspired by his work in various cities around the world this year. The purpose of this workshop will be to educate his mentalism fans on various aspects of mind reading, hypnosis, and other innate abilities of the human mind. Interested parties will be able to attend the workshop online right from the comfort of their homes. We will follow up and publish a follow-up press statement immediately this platform is live and working."
