According to Stratistics MRC, the Global Stem Cell Banking Market is accounted for $1.42 billion in 2015 and is expected to reach $4.58 billion by 2022 growing at a CAGR of 18.2% during the forecast period. Gaithersburg, Maryland, U.S. - November 16, 2016 /MarketersMedia/ -- Growing number of newborns, increasing usage of stem cells in disorder treatment and rising disposable income are some of the factors fueling the market growth. However, huge operating price and regulatory changes are some of the factors hampering the market. Rising awareness about potential use of cord tissue and the automation of procedures are creating opportunities for vendors in the market.
