World Data Center Rack PDU Market (6.78% CAGR) To 2021

ReportsnReports.com adds Global Data Center Rack PDU Market 2017-2021 latest research report; the analysts forecast global data center rack PDU market to grow at a CAGR of 6.78% during the period 2017-2021.

ReportsnReports.com adds Global Data Center Rack PDU Market 2017-2021 latest research report; the analysts forecast global data center rack PDU market to grow at a CAGR of 6.78% during the period 2017-2021.January 12, 2017 /MarketersMedia/ -- The global data center rack PDU market analyst says the latest trend gaining momentum in the market is use of DC power in data center. Powering of data centers using DC is still in its nascent stage. It is difficult for existing data center operators to operate on DC without proven efficiency in long-term operations. However, the use of AC power is more common in data centers. IT infrastructure that currently runs on DC power function by converting AC to DC. Solar panels also produce DC power.

Complete report on data center rack PDU market spread across 74 pages, analyzing 7 major companies and providing 24 data exhibits are now available at http://www.reportsnreports.com/reports/805863-global-data-center-rack-pdu-market-2017-2021.html

According to the data center rack PDU market report, one of the major drivers for this market is increased demand for data centers. The increased use of technologies such as cloud computing and big data analytics has fueled the demand for data centers worldwide. Therefore, the number of data centers has increased considerably. This, in turn, is fueling the adoption of racks and rack PDU products.

The following companies are the key players in the global Data Center Rack PDU market: CyberPower Systems, Eaton, Vertiv, Legrand (Raritan), Schneider Electric, Server Technology, and Tripp Lite. Other prominent vendors in the market are: Black Box, Canovate, Chatsworth Products, Cisco, Conteg, Delta Power Solutions, Emcor (Crenlo), Enlogic (CIS Global), Fuji Electric, Geist Global, Hewlett Packard Enterprise (HPE), Leviton, Methode Electronics, Minkels, Nlyte Software, Panduit, Racktivity, Rittal, Siemens, and TSL Products. Global data center rack PDU market in the Americas, many mega data centers are involved in the procurement of renewable energy sources for data center operations. The adoption of basic PDUs in the Americas is expected in Tier 1 and Tier 2 facilities only. However, the adoption of intelligent infrastructure with power monitoring ability is likely to grow more due to the increased power consumption concerns, especially in the US.

In EMEA, the construction rate of data centers is rising significantly in the Nordic region. The market is also expected to grow due to the upsurge in the construction of data centers both in Africa and the Middle East. In APAC, countries such as India, China, Japan, and Singapore are widely using cloud-based services and big data analytics. Such extensive use has created a demand for data centers, increasing the requirement for PDUs.

Global Data Center Rack PDU Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the present scenario and the growth prospects of the global Data Center Rack PDU market for 2017-2021. To calculate the market size, the report considers the revenue generated from worldwide sales of data center rack PDUs.

Further, the data center rack PDU market report states that one of the major factors hindering the growth of this market is rise in complexity of data center designs. Designing a data center is a complex task. During the designing process, there are factors such as the present IT load and future

loads that are critical for successful operations for a period of around 5-10 years. The wiring architecture of PDUs and IT infrastructure inside a rack are important.

About Us:

ReportsnReports.com is your single source for all market research needs. Our database includes 500,000+ market research reports from over 100+ leading global publishers & in-depth market research studies of over 5000 micro markets. With comprehensive information about the publishers and the industries for which they publish market research reports, we help you in your purchase decision by mapping your information needs with our huge collection of reports.
