

## **Spine Surgeon Dr. Richard Francis Receives 2016 Best of Beaumont Award**

*Spine Surgeon Dr. Richard Francis has been selected to receive the Beaumont Texas 2016 "Best of Beaumont Award". The "Best of Beaumont Award" is an annual awards program honoring the achievements and accomplishments of local businesses in the Beaumont Texas area.*

Spine Surgeon Dr. Richard Francis has been selected to receive the Beaumont Texas 2016 "Best of Beaumont Award". The "Best of Beaumont Award" is an annual awards program honoring the achievements and accomplishments of local businesses in the Beaumont Texas area. January 13, 2017 /MM-prReach/ -- Beaumont Texas... Renown Spine Surgeon Dr. Richard Francis has been selected for the 2016 Best of Beaumont Award in the Doctor category by the Beaumont Award Program.

Each year, the Beaumont Award Program identifies companies that have achieved exceptional marketing success in their local community and business category. These are local businesses and companies that enhance the positive image of small business through service to their customers and to the Beaumont community. These exceptional companies help make the Beaumont area a great place to live, work and play.

Various sources of information were gathered and analyzed to choose the winners in each category. The 2016 Beaumont Award Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the Beaumont Award Program and data provided by third parties.

About the Beaumont Award Program

The Beaumont Award Program is an annual awards program honoring the achievements and accomplishments of local businesses throughout the Beaumont area. Recognition is given to those companies that have shown the ability to use their best practices and implemented programs to generate competitive advantages and long-term value.

The Beaumont Award Program was established to recognize the best of local businesses in the community. The Beaumont Awards Program organization works exclusively with local business owners, trade groups, professional associations and other business advertising and marketing groups. Their mission is to recognize the small business community's contributions to the U.S. economy.

Spine Surgeon Dr. Richard Francis, Founder of Spine Associates in 2003 has built a considerable reputation by maintaining a conservative approach to treating all spine conditions in both children and adults and has been in practice for well over two decades. Dr. Francis has made it his goal to stay at the forefront of technology, yet maintain a personal connection with patients and their families. Dr. Francis is also one of the first surgeons in the nation asked to perform the artificial disc replacement and to use robotic assistance in spine surgery.

Spine Associates practice is grounded in their mission and values, which reflect their high regard for conservatism, quality of care, timeliness and the most up to date technology. They aspire to develop genuine relationships with each patient and ensure a safe and rewarding experience throughout every step of their treatment and recovery. The health of their patients is the benchmark of their success.

All patients are offered an appointment to see Dr. Francis within three days of calling, and on the same day if needed. At every visit, patients are seen directly by Dr. Francis. The referring provider

receives a letter or call regarding the patients' consults within 24 hours. Spine Associates has built close relationships with teams of neurologists, psychiatrists and pain specialists to assure timely delivery of care.

Spine Associates emphasizes the value of conservatism. Because most spine conditions will resolve with non-operative care, they only offer surgery after examining and exhausting all reasonable forms of conservative treatment options.

For the comfort of their patients waiting to be seen, their inviting waiting area features a flat screen television, magazines and a fully-stocked coffee bar and a charging station for universal smart phones and tablets.

Dr. Francis is a Fellowship Trained Spine Surgeon with a niche expertise in revision and reconstructive surgery. Spine Associates provides interventional pain management and has a complete physical therapy center on site.

Some of the most common surgery procedures and treatments Dr. Francis provides include:

Robotic Assisted Spine Surgery

Scoliosis and Reconstructive Surgery

Artificial Disc Replacement

Minimally Invasive Spine Surgery

Revision and reconstructive Spine Surgery

SI Joint Fusion

Spine Associates also offers a very unique service to new spine surgery patients with their Patient Ambassador Program. This program matches former spine surgery patients with patients who are going to be having spine surgery in order to provide assistance and information as well as encouragement to help the new patients understand the process they will be going through prior to and during their spine surgery procedure.

When new patients are trying to make a decision about spine surgery as a treatment option, it often helps to connect with someone who understands and has had an experience similar to their own. For patients who have questions, or just want to listen to what others have to say about their experience, the Spine Associates Patient Ambassador Program is available to help.

The Patient Ambassador Program was created by patients for patients and gives the new patients the opportunity to have candid, one on one discussions with other people who have had spine surgery that have volunteered to share their own personal experiences.

Spine Associates has two locations, one in Beaumont and one in Houston Texas.
