

SimulationExams.com Releases CCNA Practice Tests for iOS Smart Phones

SimulationExams.com, a leading practice tests provider, released free practice exams for Apple® iOS™ smart phones and tabs.

February 14, 2017 (FPRC) -- SimulationExams.com recently released CCNA iPhone practice tests for Apple® iOS based smart phones and tabs. The free version consists of 60 questions with flash card explanations. The software has been made available through Apple iTunes® website and may be downloaded using the link given below:

<https://itunes.apple.com/sg/developer/anand-software-training-pvt/id1189885869>

The software has been tested thoroughly for iPhone 5s and above. Other free practice tests available with iOS are CCENT, ICND2, CCNP Route and CCNP Switch.

The question types include multiple choice single answer (MCSA), and multiple choice multi answer (MCMA) with learn mode and exam mode. Flash card explanation is available for each question that provides not only the explanation to the question, but also the domain knowledge where appropriate.

Full version software would be made available soon that will contain 300+ questions with answers and flash card explanations.

The software is useful for candidates that travel often and desirous of learning while traveling or at leisure.

About CCNA: Short for Cisco Certified Network Associate, CCNA is one of the most widely taken certification in the area of computer networking. The key topics and the respective weightages for the exam are given below:

- 1.0 Network Fundamentals 15%
- 2.0 LAN Switching Technologies 21%
- 3.0 Routing Technologies 23%
- 4.0 WAN Technologies 10%
- 5.0 Infrastructure Services 10%
- 6.0 Infrastructure Security 11%
- 7.0 Infrastructure Management 10%

Network simulator labs may be practiced by using CCNA lab sim software. Full version of CCNA exam is available for Windows desktop computers that includes router simulations.
