Key trends in terms of collaborations, partnerships and licensing agreements are analysed with details. The report also explores detailed description of growth drivers and inhibitors of the Global Epilpesy Drugs Market.

Company Coverage of Epilepsy Drugs Market: UCB, EISAI, Pfizer, Sanofi And Lundbeck Complete report on Epilepsy Drugs market spread across 80 pages providing 5 company profiles with 6 tables and 23 figures is now available at http://www.marketreportsonline.com/577631.html. Market growth can be attributed to factors such as rising incidence of neurological disorders, growing disease awareness, introduction of novel antiepileptic drugs (AEDs), strong government support and initiatives. Moreover, increasing R&D investment and launch of extended-release formulations are further expected to fuel the market growth. However, high cost of patented drugs, concerns over decreasing healthcare costs as part of government austerity measures, particularly in Europe and low accessibility to antiepileptic drugs in low and middle income countries, are likely to restrict the market growth.

Vimpat is the undisputed leading drug of Global Epilepsy Drugs Market. It has a market share of nearly 22% in 2016 and is expected that Vimpat will gain its momentum till the forecasting period. Keppra was the second highest market share taker with more than 19% share in 2016 but the prospect of this drug will change due to the patent expiration in 2018 and its share decline to XX% by 2021. It is expected that Lamictal will be second leading drug with nearly XX% share by 2021. Onfi hold the third highest share of the Epilepsy Drugs market, being followed by Depakine by the year end of 2021.
