According to Stratistics MRC, the Global Medical Imaging market is accounted for $29.8 billion in 2016 and is expected to reach $45.1 billion by 2022. Gaithersburg, US - May 16, 2017 /MarketersMedia/ -- Epidemiological patterns, technological advances and increasing medical knowledge, increasing prevalence of lifestyle diseases, advantages of medical imaging modalities and advanced imaging equipments are amongst few factors that are fueling the market growth. However high cost associated with devices and side effects of emitting radiations, lack of trained personnel, low-cost sensor manufacturing in Asia and shortage in supply of Technetium-99m are limiting the growth of the market. In addition, introduction of molecular imaging methods for clinical applications, vendors focus on incorporating portable imaging devices, extensive adoption of cloud technologies are few trends and opportunities that market is likely to observe.

X-ray segment dominated the product market due to cost effective diagnostic technique. However, nuclear imaging systems is projected to be the fastest growing segment owing to adoption of minimally & non-invasive interventional medical procedures along with enhanced image quality and direct computerized processing. Furthermore, cardiovascular, orthopedic and oncology applications are growing significantly. North America is the largest market owing to the adoption of advanced infrastructure and awareness about technological advancements. Asia Pacific is projected to be fastest growing market because of the rise in the geriatric population, reimbursement policies and patient awareness level in emerging countries like India, China, Malaysia, and Philippines.

Some of the key players in global Medical Imaging market are Mindray Medical International, Alpinion Medical Systems, BenQ Medical Technology, Boston Scientific, Carestream Health Inc, Esaote SpA, Fujifilm Holding, GE Healthcare, Hitachi Medical Corporation, Konica Minolta, Philips Healthcare, Shimadzu Corporation, Siemens Healthcare, Sonosite Inc and Toshiba Medical Systems.

Products Covered:
- Computed Tomography Scanners
- Portable/Mobile
- Stationary
- By Technology
  - Low Slice Scanners
  - Medium Slice Scanners
  - High Slice Scanners
- Mammography Systems
- Analog Mammography Systems
- Digital Mammography Systems
- MRI Systems
o By Field Strength
Ø Low-to-Mid-Field MRI Systems
Ø High- & Very-High-Field MRI Systems
Ø Ultra-High-Field MRI Systems
o Closed MRI Systems
o Open MRI Systems
o Nuclear Imaging Systems/Radionuclide
o Single-Photon Emission Computed Tomography (SPECT) Scanners
o Position Emission Tomography (PET) Scanners
o Ultrasound Systems
o 2D
o 3D & 4D
o Doppler
o High Intensity Focused Ultrasound (HIFU)
o Extracorporeal Shockwave Lithotripsy (ESWL)
o By Portability
Ø Cart/Trolley Based
Ø Compact/Portable
o X-ray Imaging Systems
o Analog Imaging Systems
o Digital Imaging Systems
o By Portability
Ø Portable X-ray Imaging Systems
Ø Stationary X-ray Devices
o Tactile Imaging
o Thermography
o Elastography
o Other Medical Imaging Products
o Angiography Systems
o Radiographic/Fluoroscopy Systems
o Bone Densitometers
o Photoacoustic Imaging
o Functional Near Infrared spectroscopy
Applications Covered:
o Brain & Neurological
o Cardiology
o Neurology
o Obstetrics/Gynecology
o Oncology
o Pelvic & Abdominal
o Spine & Musculoskeletal
o Urological
o Vascular
o Other Applications
End Users Covered:
o Clinics
oAmbulatory Surgical Centers
o Diagnostic Imaging Laboratories
o Hospitals
Regions Covered:
- North America
  - US
  - Canada
  - Mexico
- Europe
  - Germany
  - France
  - Italy
  - UK
  - Spain
  - Rest of Europe
- Asia Pacific
  - Japan
  - China
  - India
  - Australia
  - New Zealand
  - Rest of Asia Pacific
- Rest of the World
- Middle East
- Brazil
- Argentina
- South Africa
- Egypt

What our report offers:
- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 6 years of all the mentioned segments, sub segments and the regional markets
- Market Trends (Drivers, Constraints, Opportunities, Threats, Challenges, Investment Opportunities, and recommendations)
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments
- Supply chain trends mapping the latest technological advancements

About Stratistics MRC
We offer wide spectrum of research and consulting services with in-depth knowledge of different industries. We are known for customized research services, consulting services and Full Time Equivalent (FTE) services in the research world. We explore the market trends and draw our insights with valid assessments and analytical views. We use advanced techniques and tools among the quantitative and qualitative methodologies to identify the market trends.

Our research reports and publications are routed to help our clients to design their business models and enhance their business growth in the competitive market scenario. We have a strong team with
hand-picked consultants including project managers, implementers, industry experts, researchers, research evaluators and analysts with years of experience in delivering the complex projects. For more information, please visit http://www.strategymrc.com/
