

Shea Body Butter by Supremasea Launches in Germany

Supremasea's Shea Body Butter is now available in the German market

May 26, 2017 (FPRC) -- Shea Body Butter, one of the top releases by Supremasea, is now available in the German market. This comes at a time when the company is working hard to expand its market presence. Over the last few months, Supremasea has introduced a number of its products in the European markets, notably in countries such as the UK, France, Italy, and Germany.

Supremasea is a skincare firebrand that launched a few years ago. Owned by Thermalabs, one of the leading manufacturers of self-tanners in the world, Supremasea formulates quality skincare products using a special blend of Dead Sea salts and other conventional skincare ingredients. Supremasea has so far launched at least four products in the market. The firm's pilot launch was Tan Enhancer, a lotion that contributes to that perfect glow after a tan. Tan Enhancer also moisturizes the skin, keeping it supple, and protects from free radicals and environmental pollutants.

Other launches by the company include the Lavender body scrub, the Vanilla Patchouli body scrub, and the Shea Body Butter. Both the Lavender and Vanilla Patchouli body scrubs are exfoliation creams that are designed from a combination of Dead Sea salts and other ingredients. These products contribute to a smooth, youthful looking skin. According to Supremasea, they can be used after a tanning session, or at any time to exfoliate the layer of dead cells from the skin, and trigger skin regeneration.

The Shea Body Butter is a triple moisture lotion that's formulated from a combination of Dead Sea mineral salts, Shea Butter, Avocado Oils, Coconut Oils, and Sweet Almond Oils. Each of these natural ingredients is known to have multiple benefits for the skin. For instance, Shea Butter contributes to skin healing and was used by the ancients to treat common skin disorders. According to Supremasea, the Shea Body Butter is an excellent lotion for individuals who suffer from dry skin, wrinkles, acne, and other common skin conditions.

Kristina Meyers, the Supremasea brand manager, said, "We are excited to announce the launch of Supremasea Shea Body Butter in the Germany market. Supremasea is currently working on an expansion program that will see most of our products available in the European market. Previously, we've introduced a number of our exfoliators in the UK, Italy, France and Germany. We are keen to make sure that all users across Europe have access to our top-quality skincare lotions based on Dead Sea salts. Customers in Germany can access the Shea Body Butter our other products online via Amazon Germany."
