

## **Sleep apnea devices Market is Evolving At A CAGR of 7.5% by 2022**

*Sleep apnea devices market information, by product (mouth devices (mandibular advancement device (MAD) and tongue retaining device), position pillows, CPAP devices, bumper belt, mask, oral appliance) by end-users (hospitals, clinics, home care) - forecast till 2022*

Sleep apnea devices market information, by product (mouth devices (mandibular advancement device (MAD) and tongue retaining device), position pillows, CPAP devices, bumper belt, mask, oral appliance) by end-users (hospitals, clinics, home care) - forecast till 2022 Pune, India - June 2, 2017 /MarketersMedia/ -- Market Highlights:

It has been noted that global sleep apnea device market is growing swiftly and is expected to grow tremendously at the CAGR of 7.5%. Globally there is huge demand for sleep apnea device in various regions.

Factors that influence this market are increasing demand for device used to treat sleep apnea over surgeries, increasing advanced technology in sleep apnea devices market, increasing advanced painless surgeries and many others.

Major Key players

- o ResMed (U.S),
- o Koninklijke Philips N.V. (Netherlands),
- o Fisher & Paykel Healthcare Limited (New Zealand),
- o GE Healthcare (U.S.),
- o Invacare Corporation (U.S.),
- o BMC Medical Co, Ltd (China),
- o Braebon Medical Corporation (Canada),
- o ImThera Medical Inc. (U.S.),
- o Cadwell Industries, Inc(U.S.) ,
- o Curative Medical (U.S.)

Intended Audience

- o Sleep apnea devices manufacturers & suppliers
- o Biotechnology companies
- o Hospitals
- o Dental clinics
- o Academic research institutes
- o Government institutes

Market Segmentation

Global sleep apnea device market has been segmented on the basis of types of devices which include mouth devices (mandibular advancement device (MAD) and tongue retaining device), position pillows, CPAP devices, bumper belt, mask, oral appliance and others.

Oral appliance has the largest market share in global sleep apnea device by product and it is expected that it will have the largest market share which has started from 2016 and is expected to continue till 2022.

Furthermore on the basis of end-user the market is segmented into hospitals, clinics, home use and others. Clinics hold the largest market share for global sleep apnea device by end-users whereas

home care holds the second largest market for the same.

Taste the market data and market information presented in more than 50 market data tables and figures spread over 80 pages of the project report. Go through the in-depth table of content (TOC) & market synopsis on " Global Sleep Apnea Device Market Research Report -Forecast till 2022."

Study objectives of the Market:

- o Providing detail analysis of the market structure along with forecast for the next 7 years of various segments and sub-segments of the sleep apnea devices market.
- o Giving insights about factors affecting the market growth.
- o Analyzing the market based on various factors- price analysis, supply chain analysis, Porters Five Force analysis etc.
- o Giving the past revenue and predicted future revenue of the market segments and sub-segments with respect to the main market and various markets globally.
- o Giving regional level analysis of the market with respect to the current market size and future prospective.
- o Giving regional level analysis of the market with respect to segments, products, end-users and market's sub-segments.
- o Providing an overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies and drawing a competitive structure of the market.
- o Tracking and analyzing competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments along with research and developments in the global sleep apnea devices market.

Regional analysis

Globally North America has the largest share in the sleep apnea devices market. The share of this nation in this market is mainly due to increasing innovations in healthcare technology and sleep apnea devices. For example GE Healthcare propelled its new MARS Virtual Sleep Lab (VSL), the first device that permits doctors to see cardiac and sleep apnea examination from any GE-monitored inpatient bed. MARS Virtual Sleep Lab, which is controlled by the WideMed's Morpheus Hx rest apnea analysis program, empowers OSA diagnosis directly from the hospital bed, transforming in-patient rooms into virtual sleep labs and empowering a bedside diagnosis with the use of monitored data to give diagnostic information.

Brief TOC

- 9 Company Profile
  - 9.1 BMC Medical Co, Ltd
    - 9.1.1 Company Overview
    - 9.1.2 Product/Business Segment Overview
    - 9.1.3 Financials
    - 9.1.4 Key Developments
  - 9.2 Braebon Medical Corporation
    - 9.2.1 Overview
    - 9.2.2 Product/Business Segment Overview
    - 9.2.3 Financials
    - 9.2.4 Key Developments
  - 9.3 Cadwell Industries, Inc
    - 9.3.1 Overview
    - 9.3.2 Product/Business Segment Overview

- 9.3.3 Financials
- 9.3.4 Key Developments
- 9.4 Curative Medical
