

Artists Who Paint the Change of Light - Deserve Recognition

*The changing of light in a painting creates that 'aha moment' for the viewer.
Announcing Sweet Summer Light art competition.*

June 21, 2017 (FPRC) -- Calling artists for Sweet Summer Light juried online art competition.

Focus Point & Shape Online Art Gallery announces Sweet Summer Light Juried Online Art Competition for the month of July 2017.

Many times the breakthrough occurs with a change of palette or an accidental discovery of a new technique. Even a change of brush may drastically affect the result of a painting.

Feedback from workshop participants proves that these breakthroughs occur in real time when artists step out of their comfort zones and challenge themselves.

Paying attention to time of day and seasonal light usually lifts an artists work from the banal into a another level of skill and appreciation.

2D artists from around the globe are called upon to make online submissions for inclusion into the Gallery's August - September 2017 online group Exhibition.

The changing of light in a painting creates that 'aha moment' for the viewer.

This Competition is Mixed Media, Watercolor, Oils, and Acrylic.

We encourage entries from artists, regardless of where they reside... to apply to this competition by submitting their best representational or non-representational art.

A group exhibition of the finalists in each media will be held online at the Focus Point & Shape Online Art Gallery during the months of August and September 2017.

Deadline for Receiving Entries..... July 31, 2017
