

Supremasea Introduces It's Shea Body Butter Formula in the UK

The Shea Body Butter by Supremasea is now available in the UK market

June 23, 2017 (FPRC) -- Supremasea, one of the leading skincare brands in the market, has introduced its popular Shea Body Butter lotion in the UK. This comes at a time when the company is seeking to establish itself as the go-to provider of skincare products in the UK, and the region by extrapolation. Over the last few years, Supremasea has introduced a number of its top products, including Tan Enhancer and the Lavender Exfoliator, in the UK market.

Established in 2014 as a subsidiary of Thermalabs Ltd, Supremasea is one of the fastest growing producers of skincare products in the industry. Headquartered in New York City, but operating a production site on the shores of the Dead Sea, the firm creates all its products using a special blend of Dead Sea mineral salts, and other top skincare ingredients. Over the last three years, Supremasea has managed to furnish the market with at least 4 rare releases, all of which are formulated from unique ingredients not usually available in similar products from the competition.

In addition to the Shea Body Butter, other products by the company include Tan Enhancer, Lavender Exfoliator, and Vanilla Patchouli Exfoliator. Tan Enhancer (Supremasea's pilot launch) is a lotion product that's meant to maintain that after-tan glow. The lotion contains a special mixture of Dead Sea salts and ingredients such as Vitamin E. In addition to maintaining the after-tan glow, it also keeps the skin protected from free radicals and other environmental pollutants. Both Lavender and Vanilla Patchouli exfoliators are body scrub products that are designed for healthy exfoliation. These products maintain a soft and smooth skin, without any of the risks associated with chemical-based exfoliators.

The Shea body butter by Supremasea is a triple moisture lotion with medicinal properties. Based on Shea Butter as the main ingredient, this product also contains a fair share of Dead Sea salts, Avocado Oils, Coconut Oils, and Sweet Almond Oils. This blend of unique ingredients creates a top-quality lotion with healing properties. According to Supremasea, the Shea Body Butter is ideal for people who are suffering from scars, wrinkles, dry skin, and other common skin problems. It contributes to skin healing, and also moisturizes the skin, leaving it looking young and youthful.

Kristina Meyers, a manager at Supremasea, said, "We are glad to introduce Shea Body Butter, one of our top skincare lotions, in the market. The Shea Body Butter contributes to healing for individuals who are suffering from Wrinkles, Scars, Dry Skin, and other common problems. For people who have perfectly normal and healthy-looking skin, this product can enrich the skin and leave it looking softer and much younger. Our customers in the UK can now take advantage of this product by buying it online on Amazon."
