

Supremasea Shea Body Butter Available in the German Market

The Shea Body Butter by Supremasea is now available in the German market

July 26, 2017 (FPRC) -- Supremasea has introduced one of its most popular products, the Shea Body Butter, in the German market. The company, which has thus far furnished the market with at least four top-notch skin care products, is looking to expand its presence in the market. Over the last few weeks, the firm has introduced a section of its products in the UK, Italy, France, and Germany.

Supremasea is an emerging firm that's owned by Thermalabs, one of the world's leading makers of cosmetics products. Thermalabs is based in New York City but operates a number of production centers in other parts of the world. In addition to Supremasea, Thermalabs owns a few other sub-brands, namely Tent World, Thermalabs Air, and Thermalabs Organic Healthcare. Tent World is a fast-growing firm that creates top-quality tents for use at the beach and other outdoor locations. Thermalabs Air is a higher-level brand that has so far produced an assortment of complex airbrushing machines, and airbrushing accessories. Thermalabs Organic Healthcare, the latest sub-brand which was established early last year, creates organic health products based on 100% bio-organic ingredients.

The Supremasea brand was launched back in 2014, starting off with a tan-enhancing lotion product that was known as Tan Enhancer. This particular lotion was primarily designed to maintain that perfect glow after a tan, but also moisturized the skin and protected it from free radicals and other environmental pollutants. Other products that Supremasea has launched lately include the Lavender body scrub exfoliator, the Vanilla Patchouli body scrub exfoliator, and the Shea Body Butter. Both the Vanilla Patchouli and the Lavender body scrubs are natural exfoliation products that are designed from a special regimen of Dead Sea Salts and conventional skin care ingredients.

The Shea Body Butter is a triple-moisture lotion that has healing properties. Designed from a combination of Dead Sea Salts, Sweet Almond Oils, Shea Butter, Avocado Oils, and Coconut Oils, this product is targeted for people who suffer from wrinkles, acne, dry skin, and other common skin care problems. According to Supremasea brand manager, Kristina Meyers, the micro-granules of Dead Sea salts in this product increase its absorption rate and make it much more effective compared to similar products from the competition.

"Our Shea Body Butter is a highly useful triple-action lotion that moisturizes the skin and contributes to a healthy and youthful-looking skin. This particular product is ideal for individuals who might be suffering from dry skin, or skin problems such as wrinkles, acne, and more. The special combination of Dead Sea salt granules and highly beneficial conventional skin care ingredients makes it a must-have lotion for anyone who's looking to improve the look and feel of their skin. Our customers in Germany can now obtain this product online via Amazon Germany," said Ms. Meyers.
